

GUNS OF GERMAN U-BOAT KILL AMERICAN

INCIDENT MAY MAKE CRISIS MORE ACUTE

LONDON REPORTS MEN WERE KILLED WHILE LEAVING STEAMER

Washington to Thoroughly Investigate Killing of American in Sinking of British Steamer—President Determined There Shall Be No Word or Deed to Merit Reproach, Even From Germany—To Give German Rights and Property Full Protection.

The crisis between the United States and Germany possibly may become more acute, thru the reported killing of an American citizen by the guns of a German submarine.

An official statement issued in London says an American, Richard Wallace of Baltimore, and the master and two seamen of the British steamer Evestone met death thru the shell fire of a submarine as they were leaving the steamer in small boats as she was sinking from the gun fire from the under-sea craft.

Two other British steamers sunk.

Two other British steamers, the Isle of Arran and Hurstwood, have been submerged, and a British sailing ship, the Garnet Hall, is believed to have been sunk. Five fatalities resulted from the torpedoing of the Hurstwood which is said to have been done without warning. The Danish steamer Lars Kruse, with a cargo of wheat for the Belgian relief committee has gone to the bottom near the Belgian coast, either having been torpedoed or struck a mine.

The situation arising from the severance of diplomatic relations with Germany remains virtually the same. The status of Austria thru her adherence to Germany's submarine warfare has not yet been determined. Meanwhile the American ambassador in Germany has demanded his passports and is making preparations to leave Berlin and plans are afoot for the German ambassador and his retinue to depart for Germany next week.

Seize German Vessels in Philippines.

Advices from Manila say that the twenty-three German vessels in Philippine waters have been seized by American naval officers at the request of the customs authorities because of attempts of the German crews to destroy the vessels.

Little fighting of moment aside from the usual bombardments and small attacks is in progress on any of the battle fronts. The Germans and Russians in the Riga Sector have come to grips near Kalnezem and Friedrichstad. On both these sectors the Germans were repulsed, according to Petrograd.

On the line in France surprise attacks at various points have netted the British, French and Germans small trench elements.

The British on a front of 650 yards have captured Turk positions to a depth of 400 yards at the junction of the Hai and Tigris rivers, near Kut-el-Amara and inflicted heavy casualties on the Ottomans.

The mouth of the Hai river opposite Kut now is said by the British war office to be under the control of the British guns.

To Keep Above Reproach.

Washington, Feb. 5.—While the United States stands before the world court of public opinion in the anxious waiting period which will determine peace of war with Germany, President Wilson is determined that there shall be no word or deed to merit a reproach, even from Germany herself.

Nothing is to be done which is not fully justified by the laws of nations and humanity; nothing is to be done for expediency; nothing is to be done which is not legal and just.

With a hope for peace and a readiness to meet war if it must be, the president has made it clear to all his officials that the course of the United States, difficult as it is must be entirely beyond criticism.

To that end, German rights and property in the United States are to have full protection of law and the president wishes every American citizen to forbear from any thought or act which might lead his country nearer to war.

Hope Almost Dissipated.

Hope that Germany might at the last moment modify her declaration of unrestricted submarine warfare was almost dissipated today by the news dispatches from Berlin which gave word of high German officials that there would be no turning back.

With that hope waning American officials now only wait an actual demonstration of how the new decree will affect American rights. The news of the killing of an American seaman in the shelling of the boats of the British steamer Evestone is not now regarded as the feared overt act. It will be thoroughly investigated before it is assigned to its proper place as a factor in the situation.

Austria's case still is undetermined. While it is known that the dual monarchy has officially adhered to Germany's declaration, as it

German Newspaper Comment On Break

BERLIN, Feb. 5.—via London.—The morning newspapers treat the breach in diplomatic relations between the United States and Germany as a matter of great gravity, but all the editorials are pitched in a calm and moderate tone. The avoidance of insulting language and cutting epithets is especially noticeable. Most of the newspapers say the news created no surprise, some of them explaining that this step was expected in view of President Wilson's message of last April and others that it was anticipated in view of the president's continual siding with the entente since the war began.

All the newspapers strongly reject the imputation that Germany has broken her promise made in her note of May 4, laying stress upon the fact that Germany's promise was expressly conditioned on President Wilson's success in bringing England to an observance of the laws of nations.

They generally assert that President Wilson persists in ignoring Germany's justification for her submarine policy as outlined in her various notes.

A number of the papers adopt a regretful tone over the wreck of the old friendship between the two countries, which they say Germany risked only because her life interests were at stake. It is generally assumed by the newspapers that the United States will make an early declaration of war against Germany, for they say the submarine campaign can be hardly prosecuted without the loss of some American lives.

While the entrance of the United States into the ranks of Germany's enemies would be highly regrettable, the newspapers say the country must meet this danger as the lesser of two evils. The danger of the United States as a war factor is treated as comparatively unimportant, owing to the remoteness of the area of war and the time that would be required to create an army. The opinion is evinced in some quarters that the submarines will decide the war before the United States can take an active hand.

The Tagesche Rundschau says: "President has determined under all circumstances to preserve England's strong sea power, perhaps chiefly because he wants to win England as an ally against Japan which has begun to set in motion 400,000,000 Chinese."

The paper repels President Wilson's effort to distinguish between the German people and the government, and says:

"We are fully united from the emperor to the humblest day laborer. Our government did not resolve to begin submarine warfare against commerce over the heads of the people, but upon the impetuous demand of the people and in complete harmony with the popular representative assembly and the public will."

The Post thinks that America's active participation in the war can hardly change the situation and that the joining of that country in the hostilities can hardly bring greater help to the entente allies than has already been given by munitions and loans.

The Boersen Zeitung sees in President Wilson's action refusal to recognize the situation of compulsion in which Germany has been placed by her allies will to destroy her and adds:

"He stubbornly adheres to the doctrine of submarine warfare which he adopted at the outset and has frustrated all the efforts of our government to maintain good relations despite the submarine warfare."

The Vorwaerts says that both sides should drop the talk about morality, and adds:

"The Americans have it easy in talking about the sacred laws of humanity which the Germans are threatening in their existence. They know nothing of the pleasures of life in the trenches and when they want bread, butter, bacon, cheese, milk and eggs they go to the next shop and buy what they want. Under such circumstances it is easy to exalt the laws of humanity. Americans have as little right to make moral representations to us as a portly citizen has the right to judge a poor devil who comes into conflict with the laws thru dire distress."

There are intimations of a conference of neutrals to reach an agreement on what neutrals may ask when the time comes.

President Wilson has not lost sight of the proposition neutrals must have in the terms of peace—terms which he fondly hopes will insure the world against another conflagration.

Neutrals May Confer.

There are intimations of a conference of neutrals to reach an agreement on what neutrals may ask when the time comes.

The first step to place congress formally on record in support of the break with Germany was taken in the senate today and is expected to be followed in the house. Chairman Stone of the foreign relations committee introduced a resolution endorsing the president's action and it was placed in a parliamentary position to be adopted tomorrow.

Republicans have given assurances of their support.

Preparations for the departure of Count Von Bernstorff and his staff progressed to the point where it was decided that the former ambassador as well as all the German consuls in the United States—a party of upwards of 300—will go home by the shortest route, probably thru Holland or Denmark. The Swiss legation is arranging the details of the departure and the German party is expected to be on its way next week. The work of co-ordinating the nation's resources went steadily forward thruout the day and will be discussed tomorrow at the first cabinet meeting since the announcement of the break.

President Wilson today went to the navy department and conferred with Secretary Daniels on expediting legislation to empower the government to take over shipbuilding.

PRESIDENT VISITS WAR AND NAVY DEPARTMENTS

Talks Over Amendment to Naval Bill with Daniels

No Change in Situation at War Department so far as Surface Indications go—De-Mobilization of National Guard Has Not Been Interrupted.

Washington, Feb. 5.—War and navy department chiefs and employees, busy with plans for any military activity the nation may require had interest their task lightened today by a personal visit from President Wilson. The president appeared unannounced at the office of Secretary Daniels. Later he dropped in on Secretary Baker.

Talk Over Amendments.

With Secretary Daniels he talked over the amendments to the naval appropriation bill which the house is expected to pass tomorrow. There was no change in the situation at the war department, so far as surface indications went. De-mobilization of national guard regiments from border service has not been interrupted nor have orders gone out to speed the return of the other guard units.

The most probable course of the administration in the view of many officials would be to summon a volunteer force of half million men and allow the decision as to passing to universal service systems await the response to that call.

Plan for Swift Action.

Various bureaus of both the war and navy departments are laying plans for swift action should a war emergency arise. Further messages from individuals and corporations offering their services continued to flow into the departments.

The navy department issued a list of prompt offers reaching Secretary Daniels on which appeared the names of the Bethlehem Steel company, Fore River Shipbuilding company, Electric Cable company, New York, Slocum Avium and Slocum Laboratories, Inc., New York; Lackawanna Steel company, New York; Boston State and Machine company, Magnolia Metal company, New York; Bernstein Manufacturing company, Philadelphia; Wash Gear Works, Terre Haute, Ind.; Roberts Numbering Machine company, Brooklyn; United States Rubber company, New York; Aero Club of America; Great Lakes Boat Building Corporation of Milwaukee; Boston & Maine railroad; Pittsburgh Hickson company, State Island Shipbuilding and Kearfoot Engineering company of New York.

Ten members of the volunteer aerial coast patrol has asked to be permitted to take advance course of training in naval aeronautics under the navy department. They are ready to purchase their own machines and to report anywhere for training.

Must Decide on Type of Building.

In the effort to speed up naval construction a decision must first be reached as to what type of building is to be given preference. Indications are that energy would be concentrated on building submarines for coast defense work and submarine chasers for anti-submarine patrol and escort duty.

There were further intimations today that general censorship legislation would be among the first enactments sought in the event of war. Secretary Daniels turned over today to Lieut. Charles Belknap, Jr., of the naval operations bureau the work of reviewing navy department advices and making public those that do not fall under the ban of military secrecy. The secretary will continue his daily conferences with press representatives and Secretary Baker resumed that custom today.

SPAIN TO REPLY TO GERMAN NOTE TODAY

MADRID, Feb. 5.—via Paris.—Count Romanones, the premier, announces that Spain's reply to the German note on submarine warfare will be handed to the German ambassador tomorrow and communicated at the same time to the Spanish ambassadors at Berlin and Vienna.

While the exact text of the note is not known, it is understood to be an energetic protest based on the rules of international law and the which declare and proclaim the Spanish right to the free use of the seas and to commercial intercourse with foreign countries.

Another cabinet meeting is being held tonight to consider the answer. The American ambassador Joseph E. Willard had a long conference today with the Spanish officials.

FRED FULTON IN LAWSUIT

Hudson, Wis., Feb. 5.—The suit filed against Fred Fulton, a Minnesota heavy weight pugilist, by Mike Collins, his former manager, is on the docket for trial here this week. Fulton recently severed his relations with Collins and the latter is now seeking an order of the court to restrain the pugilist from fighting under any other management.

POSTPONE MEETING.

Port Dodge, Ia., Feb. 5.—J. F. Ford, president of the Central association, notified directors of the league today that the proposed meeting at Cedar Rapids tomorrow has now been postponed until February thirteenth, at 1:30 p. m. This action was taken because of the poor transportation conditions at this time.

SENATE PREPARES TO SANCTION BREAK

Senator Stone Probably Will Call Resolution Up for Action Today

SHOW UNUSUAL ACTIVITY

Congress Paving Way for Any Legislation That Crisis May Demand

LEADERS STILL HOPEFUL

WASHINGTON, Feb. 5.—Congress began earnestly today to pave the way for legislation that may be demanded by any development in the international crisis. Still hopeful that the break with Germany will not involve the United States in war, leaders of both parties recognized that preparations should not be delayed, and there was unusual activity in the naval, military and revenue committees, while the judiciary committee of the senate worked all day on a series of measures relating to conspiracies against the government.

The senate prepared to give its official sanction to the severance of relations with Germany.

To Call Up Resolution.

Chairman Stone introduced a resolution endorsing the president's course and probably will call it up for action tomorrow. There will be some discussion, but a majority of the Republican leaders are in sympathy with the resolution and Senator Lodge making Republican amendments to the foreign relations committee will speak in its favor.

A measure prescribing heavy punishments for espionage, framed by the department of justice was introduced during the day in the senate and at the request of Secretary Baker the house military committee wrote into the annual army appropriation bill a special appropriation for anti-aircraft guns at arsenals and a provision removing all limit from the number of army general staff officers who may be stationed at Washington to work out war problems.

Heavy Espionage Penalties.

Senator Overman's espionage bill provides penalties of two years imprisonment and a fine of \$10,000 for a person approaching, entering or flying in an aeroplane over any vessel, fort, navy yard or other place connected with the national defense to obtain information to which he is not lawfully entitled. It applies to anyone who obtains photographs, blue prints, documents or memoranda of such places and to code or signal books and models. The same penalties are provided for mailing any letter or document written in any medium "which is not visible unless subjected to heat, chemicals or some other treatment."

When any of these things are attempted for the purpose of delivering information to any foreign government the penalty is made twenty years imprisonment in peace time and in time of war the penalty is imprisonment for life.

Another section of the bill provides, life imprisonment in time of war for anyone who reveals plans of troop movements or measures of defense.

Confer on Amendments

Important amendments to the naval bill necessitated by the international emergency were considered at a conference today between Chairman Padgett of the house committee and Secretary Daniels. The secretary is particularly anxious to procure passage of the amendments which would give the president authority to take over private navy yards and munition plants in time of stress and would give the navy department elastic authority regarding construction of submarines, air craft and other types of defense war ships.

The army bill amendment removing all limit to the number of members of the general staff who may be brought to Washington would replace a provision in the present law under which not more than fifty percent of them may be stationed here.

The bill carried \$200,000,000 among other things it appropriates \$2,500,000 for training camps at Plattsburgh and elsewhere \$10,000,000 for field army munition, \$4,235,000 for officers' reserve corps and approximately \$9,000,000 for aviation.

William Jennings Bryan's presence in Washington at this time and his proposal of a popular referendum on the question of the United States going to war against Germany attracted notice today on the floor of the house. Representative Miller of Minnesota read a message from a constituent stating that "the interests of our country would be conserved by a late intervention of the said Bryan."

Representative Huddleston, Democrat of Alabama, and Representative Sloan, Republican of Nebraska warmly defended Mr. Bryan.

PERSHING'S EXPEDITION RETURNS FROM MEXICO

Officers Express Gratification At Fitness of Men.

Soldiers Will Resume March to Border Stations Today—Refugees Remain a Problem for Civil Authorities—More Than 3,000 in Columbus.

Columbus, N. M., Feb. 5.—Ten thousand thoroughly seasoned soldiers, members of General John J. Pershing's Mexican punitive expedition, returned to the United States today, after more than 18 months' foreign service.

Interest of the soldiers tonight was divided between the pleasures of their first leave of absence in an American town since they entered and the recent developments in the international situation.

High army officers from the base camp here and from other camps in the southwest who witnessed the spectacular parade from Palomas Lakes today, expressed gratification at the apparent physical fitness of the men.

Columbus was a seething mass of soldiers tonight. Tomorrow they will resume their march to border stations and Columbus will gradually lapse into its calm which was broken by Villa's raid early in the morning on March 9 last.

The refugees from Mexico who preceded the punitive expedition remain a problem for the civil authorities as there are more than 3,000 encamped here. The American Red Cross has been appealed to for assistance in feeding these refugees.

In the prison camp under heavy guard are the twenty-two alleged Villa bandits who are being held for the state courts of New Mexico. Charges of murder in connection with the Columbus raid will be filed against a number of them it was said tonight.

INTRODUCE TELEGRAMS IN LEAK INVESTIGATION

Attempt To Determine How Heavily Members of Hutton Firm Dealt in Market on December 29.

Washington, Feb. 5.—Testimony was introduced in the form of telegrams today by the rules committee of the house, investigating the "leak" on President Wilson's peace note, to determine how heavily members of the brokerage firm of E. F. Hutton & Co. dealt in the market on Dec. 29 when the note was made public.

All members of the Hutton house examined thus far have declared emphatically that none of its members profited financially as a result of advance information on the coming note.

E. Fred Essary, the Washington newspaperman who wrote a forecast of the note for F. A. Connolly, a local broker, which reached the Hutton firm, was recalled but added little to his previous testimony.

S. M. Reynolds, a reporter for the New York Evening Sun voluntarily testified that he told Essary about Secretary Lansing's conference with the newspaper men on the note and thought he advised Essary that the secretary's information was confidential.

The committee probably will go to New York Thursday to hold another session.

COMPLETE BRAZIL'S REPLY TO GERMANY

RIO JANEIRO, Feb. 5.—Brazil's answer to Germany in the matter of unrestricted submarine warfare has been completed. Dr. Lauro Muller, the foreign minister, after a conference with the diplomatic representative of the United States, put the finishing touches on the note in collaboration with Clovis Bevilacqua, who is the Brazilian representative on the arbitration tribunal at the Hague.

The attitude of Brazil will be to safeguard its rights and interests menaced by the submarine campaign. The text of the note will be made public after it has been communicated to the various chancelleries.

The government in its note says the Gazeta Noticias will specify the acts which it considers hostile to its commercial independence and political sovereignty.

RENEW RUMOR OF PROPOSED ATTACK

JUAREZ, FEB. 5.—Rumors of a proposed attack upon the garrison here by Villa forces within a week were renewed here tonight following the withdrawal of General Pershing from Mexico. The bandit Ochoa was reported near Juarez with a small force yesterday. Jose Ynez Salazar was reported between Charcos and Casas Grandes tonight, the de facto garrison at Casas Grandes having evacuated, according to unofficial reports here.

TURKISH GRAND VIZIER RESIGNS

LONDON, Feb. 5.—The Turkish grand vizier has resigned according to Reuters dispatches from Constantinople received by way of Amsterdam. Ill-health is given as the reason for his resignation.

Talaat Bey, who has held many portfolios in the cabinet, has formed a new ministry with Enver Pasha as minister of war, Nessim Bey as foreign minister and Samsakiazism Effendi as chief of cabinet.

SENATE OVER-rides PRESIDENT'S VETO

Passes Immigration Bill With Long Fought Literacy Test Provision

MEASURE NOW A LAW

International Situation Brought Into the Closing Debate In the Senate

INTRODUCE NEW BILL

WASHINGTON, Feb. 5.—Congress has overridden a veto by President Wilson for the first time and enacted into law the immigration bill with its long-fought literacy test provision. The senate voted today 62 to 19 to pass the measure notwithstanding the veto and in spite of eleven hour information that Japan again had protested against the language of the Asiatic exclusion act.

Ends Twenty-Year Contest.

The house overturned the veto last week by a veto of 106 so the senate's action ends the contest of twenty years standing in which three presidents have repudiated similar bills passed by congress. The international situation was brought into the closing debate in the senate, Senator Reed calling attention to the Japanese objection and pleading that nothing be done at this time to disturb or impair the country's relations with a friendly nation.

Senator Smith of South Carolina, chairman of the immigration committee answered the declaration that the present state of international affairs emphasized the necessity for a pure, homogenous American people, such as the bill was intended to protect. The vote on re-passing of the bill was as follows:

To Override the Veto.

Democrats:—Ashurst, Bankhead, Beckham, Bryan, Chamberlain, Chilton, Culberson, Fletcher, Hardwick, Hughes, James Johnson of Maine, Kern, Kirby, Lane Lee, Martin, Myers, Overman, Phelan, Pittman, Pomerene, Robinson, Shafroth, Sheppard, Shields, Simmons, Smith of Georgia, Smith of South Carolina, Thomas, Tillman, Underwood, Vardaman, Williams—34.

Republicans:—Eorah, Brady, Clapp, Cummins, Curtis, Dillingham, Fall, Gallinger, Gurnea, Harding, Jones, Kenyon, LeFollette, Lodge, McCumber, Nelson, Norris, Page, Penrose, Poinsette, Smoot, Sterling, Sutherland, Townsend, Wadsworth, Watson, Weeks, Works—28. Grand total, 62.

Against Overriding the Veto.

Democrats:—Hollis, Husting, Johnson of South Dakota, Lewis, McGuire, Ramsdell, Reed, Salsbury, Stone, Thompson, Walsh—11.

Republicans:—Brandegee, Clark, Colt, DuPont, Lippitt, Sherman, Smith of Michigan, Warren—8. Grand total, 19.

Senator Phelan, one of those who voted to override the veto had voted against the original passage of the bill.

Senators who voted for the original bill but who would not vote to pass it over the veto were: Hollis, Johnson of South Dakota, and Thompson, Democrats and Sherman and Smith of Michigan, Republicans.

Senator Reed communicated information from the state department to the effect that the Japanese embassy had called attention to language in the bill providing that no aliens now in any way excluded from entry into the United States would in future be permitted to enter. He said the criticism was based on their belief that this language wrote into law the Root-Takahira gentlemen's passport agreement against the entry of Japanese laborers.

Senator Lodge of Massachusetts, ranking Republican member of the foreign relations committee said: "The present bill went to conference it was decided to phrase the language so as to exclude all aliens 'in any way excluded or prevented from entering the United States.'"

Applies to All the World."

"It applies to all the world," said

(Continued on Page 4).

WILL ELECT DIRECTORS TONIGHT

The annual meeting of the Cham-
ber of Commerce will be held this
evening at the Peacock Inn. Supper
will be served at 6:30. Reports of
officers and chairmen of departments
will be made and seven new direc-
tors will be chosen. The directors
whose term will expire are H. J.
Rodgers, F. J. Andrews, J. J. Reeve,
F. H. Bode, Frank Byrns, Frank J.
Heini and Dr. Edward Bowe.

JAPANESE DYES FOR AMERICA

The Japan Advertiser reports that
the growth of dye-stuffs companies
in Japan has caused an oversupply
of certain dyes, and a petition has
been presented to the Government
to remove the ban on export of dyes.
Japan depended largely upon Ger-
many for dyes, before the outbreak
of the war, and the cutting off of
that source of supply had a very de-
pressing effect on the business of
Japan dyers. But the establishment
of Japanese dye mills was quickly
accomplished with the result that
Japan now has more dyestuffs than
she needs.

In all probability the embargo on
exports of dyes will be removed. The
Democratic party enacted a law last
summer purporting to lay a protec-
tive tariff duty on dyes, but the rates
were unsatisfactory to exporters
concerned, and the particularly ag-
gravating provision of the law is that
it does not become effective until the
declaration of a European peace. In
the meantime Japan will find a free
market in the United States for her
surplus dyes and our infant dye in-
dustry will have a competition to
contend with in which the cost of
labor is about one-twelfth that paid
here.

BERNSTORFF'S GOOD RECORD.

When Count Bernstorff leaves the
United States for his home in Ger-
many he will go with the high regard
of the American people. As some
one has said, in part of the European
countries ambassadors are chosen be-
cause of their lineage but in Ger-
many men are selected for the posts
because of their brains.

That rule, whether general or not,
applied in the selection of Count
Bernstorff for his American post. He
is a man of exceptional ability and
all thru the difficult period since
the war in Europe began has main-
tained the earnestness of his purpose
to preserve amicable relations be-
tween the United States and his home
country. He has shown the great
breadth of spirit and the ability
to understand the mind and heart of
America as few ambassadors have.

His kindling in his loyalty and
devotion to his country, the ambassa-
dor's course has created a very
high place for him in America's es-
timate.

FATIGUED THRU YEARS.

When Benjamin Pyatt's life went
out this city lost a faithful public
servant. Not everybody in Jackso-
nvile knew Benjamin Pyatt but those
who came in contact with his life ap-
preciated to the full the earnestness
and sincerity of his character. He
was a veteran in the mail service of
Jacksonville and with a faithfulness
rarely equaled had served the peo-
ple here for more than a quarter of
a century. Day after day, month after
month, year after year, thru summer
and winter, he discharged his
duties with care and earnestness.
For some time he held one position
for a great many years engendering
familiarity and slovenliness in the
performance of duty. They grew tired
in service and became careless.

REPORT SUBMARINE SHELLED STEAMER

LONDON, Feb. 5.—A despatch to
Reuters from the Hague says:

"The foreign office has learned that
the Dutch Steamer Gamma was
first shelled and then sunk by bombs.
The foreign minister immediately
asked an explanation from the Ger-
man government."

Reuters' Amsterdam correspondent
dealing with the same case says:

"Berlin denies that the Gamma
was torpedoed without warning as a
result of the recent submarine in-
structions. It adds that the steamer
could only have been sunk in error
warfare for carrying contraband to
England."

The only previous announcement
indicating that the Gamma had met
with disaster was contained in a re-
port by Lloyd's Friday that the crew
of the steamer had been landed. The
Gamma registered 2,198 tons and was
owned in Amsterdam.

**Box social at North Oakland
School, Friday night, Feb. 9th.**

**COURT APPROVES
PURCHASE OF COMPANY**

CINCINNATI, O., Feb. 5.—In the
proceedings to wipe out the "railroad-
coal company combine" the United
States court today approved the New
York Central railway's purchase of
the Continental Coal company and its
plan to transfer that property to
George M. Jones, Jackson, Ohio, coal
operator. Under the terms of the
contract Jones is to pay the costs
and expenses, including receivership
certificates of the foreclosure pro-
ceedings against the continental com-
pany and cash to an amount of \$932,-
000.

figures emphasize the importance of
the department in a financial way in
a city of such limited money re-
sources.

It has been Mr. Vasconcellos' pur-
pose to increase the efficiency of the
light and water department as much
as possible and at the same time to
keep economy constantly in mind.
So while more water has been pump-
ed and sold the past year than in
1915, he has also improved upon the
record of expenses for that year by
making a net saving in expenditures
for coal and oil in the light and wa-
ter departments of \$1,829. This has
been accomplished notwithstanding
the fact that prices for both oil and
coal were higher in 1916 than in the
previous year.

By some changes in method and
by watching affairs carefully, with
the co-operation of Supt. Cobb of
the water department and Supt.
Stoldt of the light department,
economies have been effected. In
the year just closed 1,553 tons less
of coal were used at the light plant
than in 1915, and an increase of but
312 tons shown in the water depart-
ment.

While the records are very inter-
esting and indicate the earnest work
that Mr. Vasconcellos is doing, his
report in calling attention to the
status of the water supply is still
more interesting and important. For
weeks, yes, for months, the city has
been on the very edge of an absolute
water shortage. The lake supply has
been practically exhausted and oc-
casionally one of the wells at the
north side station has been out of
commission. Certainly something
must be done in the near future for
increasing the supply and keeping
Jacksonville out of the danger zone
in this regard. This same sentence
has been so often written that it is
hackneyed and gray with age, but
the truth and the time will come
when the condition can no longer be
ignored.

MEXICO'S NEED

Editor Jacksonville Journal:

Your editorial in the Sunday Jour-
nal on Mexico's Greatest Need ex-
pressed a deep truth, that one of
the greatest needs of that distracted
country is a common school educa-
tion. But when you say that the first
need is a common school, you are
neglecting the children and young peo-
ple, and that the university part of
the program can well come later,
you overlook a most fundamental
fact in educational progress. Educa-
tion does not advance from the
lower grades to the higher, but al-
ways from the higher downwards. In
educational progress the common
school is always the product of the
college or university. To make a
good system of schools you must
first have teachers, and there must
first be colleges to supply the teach-
ers. The teachers will then make the
common schools.

This truth is abundantly illustrat-
ed in every nation. In Germany, in
England, in our own thirteen origi-
nal colonies always the university or
college was first founded. In Illi-
nois the Colleges, Illinois College,
Shurtleff College, McKendree Col-
lege, Illinois Woman's College, were
all founded before a common school
system was possible. In fact, these
and other colleges made it possible.
The present increasing efficiency of
the public schools is directly owing
to the fact that the colleges are bet-
ter than before, and are preparing
better teachers.

You refer to the beneficent work
of Roberts College in Constantinople.
It is well known that the good done
by Roberts College has been in prepa-
ration of teachers who have carried
their lighted torches down into the
darkness of many communities in
that dark land.

Mexico, like every other state, will
have good common schools as soon
as it can receive a sufficient supply
of competent teachers, but the pro-
cess of development must be from
above down. It can never begin at
the bottom.

Joseph R. Harker.

MRS. JAMES REA DIES AFTER SHORT ILLNESS

Well Known Resident of Murray-
ville. Answers Summons Tuesday
Morning at 12:30 O'clock.

One of the best known and most
highly respected women of the Mur-
rayville vicinity, passed away when
the death summons came to Mrs.
Mary Rea, the wife of James Rea,
and a life long resident of southern
Morgan county. Mrs. Rea was taken
suddenly ill last week and on Friday
was removed to Passavant hospital,
where death occurred Tuesday morn-
ing at 12:30 o'clock.

Mary Johnson was born west of
Murrayville, the daughter of the
Rev. Henry Johnson, a pioneer in
the Baptist ministry in that locality.
She was married there to James Rea
and for a number of years has had
residence in the town of Murrayville.
Mrs. Rea was a member of the Meth-
odist church. Hers was a life of
Christian devotion and in her death
the whole community will feel great
loss.

The following sons and daughters
survive Mrs. Rea: Mary, wife of R.
V. Givins, east of Jacksonville; Henry
Rea, residing in North Bayou;
John Rea, Woodson; Jennie,
wife of John Akers, Manchester;
Ethel, wife of Penton Wright, south
of Murrayville; Lyndell, wife of Bry-
an Shepard, Waverly and Miss Bes-
sie Rea at home. One brother, Al-
den Johnson of White Hall survives.

No funeral arrangements have as
yet been made.

PREDICT MODERATE TEMPERATURES

Washington, Feb. 5.—The weath-
er bureau tonight predicted moder-
ate temperatures over most of the
country the next few days following
the cold wave and high winds which
since Saturday have prevailed east of
the Mississippi causing heavy crop
damage and probably the most se-
vere suffering of the winter.

SOCIAL EVENTS

Entertained Class.

The Loyal Women of Central
Christian church, taught by Miss
Eleanor Thompson, met with Mrs.
George T. McKee of North Fayette
street Tuesday evening. The hostess
was assisted in entertaining by Mrs.
Lloyd Hamilton. The White Ele-
phant contest caused much merriment.
In the bird guessing game
first prize was won by Mrs. Lydia
Ricks and second prize by Mrs. Harry
Jackson. During the evening de-
lightful refreshments were served.

Miss Davis Gives

Sewing for Miss Brown.

Miss Esther Davis entertained
Monday afternoon at her home on
Webster avenue for Miss Esth Brown
who is soon to wed. The guests were
twelve intimate friends of Miss
Brown. Yellow and white were the
colors used at a dainty luncheon.
The time was spent in hemming tea
towels for the prospective bride.

Farewell Party

For Miss Park.

Friends of Miss Irene Park, who
will leave today to take a civil ser-
vice position in Springfield, gave a
theater party Monday evening in her
honor, going from Scott's to the
confectionary of Mullenix and Ham-
ilton for refreshments. There were
eight in the party. Miss Park came
to this city from Waverly some
three years ago and has made many
friends during her residence here.

Monday Conversation Club

Observes Birthday Month

The Monday Conversation club ob-
served its birthday birthday yester-
day. This anniversary was observed
with a luncheon at Colonial Inn,
when the members took occasion to
commemorate the birthdays of many
of the celebrated personages born in
February. The world owes a great
debt to the shortest month and a
study of history shows that indeed
it is the month of birthdays.

Mrs. O. E. Burke, who is the presi-
dent of the club, presided, and in
her introductory words referred to
the many notable people born in
February. She mentioned that the
country is indebted to this month for
four presidents, many statesmen,
authors, artists, musicians, pioneers
and reformers. With so much material
available Mrs. Burke said it was only
possible to briefly mention some of
the few notables. Mrs. J. N. Ward,
who is at Clemson College, South
Carolina, and Mrs. W. H. Hinrichsen,
who is in New York City, sent their
contributions to the anniversary.

The literary program was inter-
persed with several musical num-
bers. Miss Wood of the Woman's
college played a Capriccio by Men-
delsohn and Miss Dunlap's violin
number was a Romance by Max
Bruch. Then Mrs. Florence Pierson
Hartmann gave a group of songs,
"Cast From Thy Brow" and "Leave
Me to Languish," by Handel, and
Pichouette by Massenet. All of
these musical numbers were given
with such artistic excellence that
they added very largely to the inter-
est of the afternoon.

To Mrs. E. W. Bassett was given
the task of responding first of all
for the club. Then the following sub-
jects were assigned and discussed
with brief and sprightly comment.

Feb. 2—"Our Friend the Ground-
hog," Mrs. M. F. Dunlap.

Feb. 3—"Sidney Lanier," Mrs. J.
N. Ward.

Feb. 5—"Ole Bull," Miss Mary
Priest.

Feb. 7—"Reading from Dickens,"
"Tales of Two Cities," Miss Janet
Powell.

Feb. 11—"Thomas Edison," Mrs.
W. S. Jones.

Feb. 12—"Abraham Lincoln," Miss
Della Dimmitt.

Feb. 14—"St. Valentine," Mrs. W.
A. Fay.

Feb. 15—"Susan B. Anthony,"
Miss Mary Johnston.

Feb. 16—"Oliver Jefferson," Mrs.
W. H. Hinrichsen.

Feb. 22—"George Washington,"
Miss Della Walton.

Feb. 23—"Handel," Miss Amy
Smith.

Burial was made in Jacksonville
cemetery. The bearers were Wil-
liam Wood, Fred Ransom, Julius C.
Strawn, George Brown, Charles Rab-
johns and Carl Walters.

Rippling Rhymes
By WALT MASON

LITERATURE

Most people who have things to
sell now profit from H. C. of L. The
farmer's butter, eggs and oats bring
in the plan and fancy groats. The
man who sells his shoes and boots,
the butcher, with his wholesome
meat—all charge the limit, and re-
peat. But writers, in their squalid
lairs, can't raise the prices of their
wares. The poet has to purchase
meat and leather caskets for his feet
and every hour the prices rise to
things that threadbare singer buys.
The printer that cost ten cents a ton
before this era was begun, now cost
him twice as much a pound, and so
it goes, the whole list round, and so
when he sweats in his abode, and
grinds a grand and deathless ode,
he cannot go around and say, "The
price of rhyme's gone up today; so
many poets have been slain, where
armies rage on Europe's plain, that
there's a dearth of noble rhyme, and
so we raise the price a dime." He
cannot put this scheme across, for
art is now a total loss. The man
with henfruit, hay or cheese, may
charge such prices as they please,
but they who make the muses sweat,
must take whatever they can get.

THIS DATE IN HISTORY

February 6, 1833.—Meeting of the
citizens of Sangamon county
friendly to the establishment of a
state bank was held at the tavern
of Mr. A. G. Herndon at 6 p. m.
February 6, 1833.—William L.
May, Esq., was called to the chair
and Edward Jones appointed sec-
retary. Stephen T. Loran address-
ed the meeting in support of the
measure.

erables," Miss Millicent Rowe.
The readings by Miss Powell and
Miss Rowe were of exceptional merit.
The luncheon service was excellent
and in every way the anniversary
meeting measured up to the expecta-
tion of the members and guests
present.

FUNERALS

Kruse

Funeral services for Alfred Adel-
bert Kruse were held from the resi-
dence, 342 East Morton avenue,
Monday afternoon at 1:30 o'clock in
charge of the Rev. W. W. Theobald
pastor of Brooklyn church. Music
was furnished by Miss Ora Theo-
bald, Miss Bessie Campbell, T. B.
Reeve and Mr. Walters. The flow-
ers were cared for by Mrs. T. S.
Martin and Miss Mayme Sweeney.
The remains were taken to Vir-
ginia on the C. P. & St. L. train Mon-
day afternoon for interment. The
bearers were: James Casey, Francis
Sweeney, Verne Schofield and
Tracy Cowgill.

Core

The funeral of A. B. Core was
held at Grace M. E. church Monday
afternoon at 2:30 o'clock in charge
of the pastor, the Rev. F. B. Madden.
The body arrived Sunday morning
from Quincy, where death occurred,
and was taken to Williamson &
Cody's undertaking parlors to await
the hour of the funeral. The Ma-
sonic burial ritual was used and the
lodge ceremonies were held at the
church instead of at the grave on
account of the severe weather. C. P.
Ross acted as master and Asa M.
Robinson as chaplain. The G. A. R.
attended in a body. Music was fur-
nished by a trio, Asa M. Robinson,
M. L. Robinson and A. C. Metcalf.
The flowers were under the care of
Mrs. Lucretia McFarland, Miss Ma-
bel McFarland, Miss Florence Tay-
lor and Miss Bessie Franz.

Mrs. Core was ill in Quincy and
could not be present. The daugh-
ters of Mrs. Core, one in Florida,
and one in southern California, could
not attend, nor could the mother
his way from Philadelphia in time
for the funeral.

Burial was made in Jacksonville
cemetery. The bearers were Wil-
liam Wood, Fred Ransom, Julius C.
Strawn, George Brown, Charles Rab-
johns and Carl Walters.

**REPORT FIGHTING WEST
OF CHIHUAHUA CITY**

EL PASO, Feb. 5.—Heavy fight-
ing is going on between the forces
of Carranza and Villa at a point
about thirty miles west of Chihua-
hua City according to passengers
from Chihuahua who arrived tonight
at Juarez.

The passengers said a hundred
and fifty Carranza wounded had
been brought into Chihuahua. A
Carranza General was also reported
killed, who, one rumor said, was
General Francisco Gonzales, the late
commander of the Juarez garrison.

Mrs. Lulu Campbell of Chatham attended the dedication of Hebron church Sunday and then came down to Jacksonville for a visit with friends in this vicinity.

W. E. Hamilton of Carrollton and Herman Teters of Hillview, Illinois Telephone Co., managers, were visitors at the local office Monday.

Fred Beckman and George Bomis, special construction men for the Central Union Telephone Co., have left the local office for Beards-town but will return later to complete the installation of new switch boards here.

ELLIOTT STATE BANK.

Saving Deposits made during the first ten days of February will bear interest from the FIRST of the month.

WAITED PATIENTLY FOR BRIDE AND WON

Clyde Fisher and Miss Anna M. Wells Wedded Here—Planned an Earlier Ceremony but Bride Was Not of Legal Age.

"All things come to he who waits."

That is an old adage but Clyde Fisher proved the truth of it when he gained his heart's desire Monday evening in his marriage to Miss Anna Mae Wells of Springfield. The ceremony was said by Justice Dyer at the home of the groom's parents, Mr. and Mrs. Robert Fisher, 771 South Fayette street at 7:30 o'clock.

January 9, Mr. Fisher procured a license to marry Miss Wells. All arrangements were made for the ceremony. However, the bride to be was not yet of legal age. Her father came down from Springfield and took her home. Fisher, however, was not daunted. He laid the license carefully away and inaugurated a policy of "watchful waiting."

A day or so ago Miss Wells reached the legal age and Mr. Fisher went to Springfield and made arrangements for the wedding which took place Monday evening.

The groom is the son of Mr. and Mrs. Robert Fisher. He is in the employ of the Jacksonville Railway and Light company and is a young man of good character and highly regarded by his friends. His bride is a native of Brown county but recently has been living in Springfield. They will make their home for the present at 771 South Fayette street.

THE ART ASSOCIATION OF JACKSONVILLE MEET

Mrs. Myra Henderson Wilson, for several years the head of the art department of the Illinois State Federation of Clubs and also president of the Springfield Art Home, will address the Art association in Jacksonville this evening at 7:30 in the David Strawn Memorial, 331 West College avenue. The subject will be "Modern American Painting" with new stereopticon hand colored slides. Members of the Art association and all friends are cordially invited to be present.

Anna Brown
Recording Secretary.

TRY IT AND SEE!

Lift your corns or calluses off with fingers! Doesn't hurt a bit!

A noted Cincinnati chemist discovered a new ether compound and called it freezone and it now can be had in tiny bottles as here shown for a few cents from any drug store.

You simply apply a few drops of freezone upon a tender corn or painful callus and instantly the soreness disappears then shortly you will find the corn or callus so loose that you can just lift it off with the fingers.

No pain, not a bit of soreness, either when applying freezone or afterwards and it doesn't even irritate the skin.

Hard corns, soft corns or corns between the toes, also toughened calluses just shrivel up and lift off so easy. It works like a charm. Genuine freezone has a yellow label. Don't accept any except with the yellow label.—Adv.

Will Watch Records.

The superintendent reported the need of suitable records which are now being kept by pupils and often mistakes are made. He said there were instances where such things were very important. For instance, a former pupil now in another city wanted to enter the high school there and had sent for his credits. It was important to have these things carefully recorded and authority to have it done was granted him.

President Lippincott displayed a handsome gavel the gift of the manual training class. It was suggested that it be a gift to him making it possible for the next class to do the same thing, but finally the article was received as a gift to the board and thanks to the manual training class were voted.

Member Hopper brought up the matter of basketball games scheduled and suggested that many times the boys are badly overworked very injudiciously. It was said it was owing to that fact that the Jacksonville team was so badly beaten at Quincy, two of the members of the team being out of condition owing to excessive practice at home. It was the sense of the board that something should be done to correct the matter but no action was taken and the board adjourned.

Superintendent's Report.

MUSTEROLE Works Easier, Quicker and Without the Blister

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole. Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of a pleasant white ointment. It takes the place of out-of-date mustard plasters, and will not blister. Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, eczema of the chest (it often prevents pneumonia).

DON'T FUSS WITH MUSTARD PLASTERS!

KEEP LIVER ACTIVE AND BOWELS CLEAN WITH "CASCARETS"

Be cheerful! Clean up inside tonight and feel fine. Take Cascarets to loosen your liver and clean the bowels and stop headaches, a bad cold, biliousness, offensive breath, coated tongue, sallowiness, sour stomach and gases. Tonight take Cascarets and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Wake up feeling grand—Everybody's doing it. Cascarets best laxative for children also.—Adv.

SCHOOL AFFAIRS DISCUSSED BY BOARD

Only Ordinary Business Matters are Given Attention at Monday Night Session.

The board of education met in regular session last evening and transacted ordinary business. The arrival of the fire extinguishers was announced and the expected arrival of the insurance inspector to establish the rate of insurance; the sale of the old seats was placed in the hands of the superintendent and the building and supply committee; the superintendent was authorized to buy reading matter for the lower grades; Thursday and Friday, April 12 and 13, were set aside for mid-spring vacation; the superintendent was authorized to have topical outline of study printed.

The Proceedings.

The board met in regular session with all present except Member Rapp. The minutes of the last meeting were read and approved and all approved bills were ordered paid.

Member Hopper reported the fire extinguishers had arrived and would shortly be filled ready for use and the insurance inspector would soon be here to fix rates.

The matter of the disposal of the seats on hand was brought up as they will have to be replaced with those conforming to the law and the matter was referred to the superintendent and the building and supply committee with power to act. A letter of thanks for resolutions of sympathy was read from Miss Wylder.

It was announced that Mr. Boyd had been employed as cook at the open air school and a member of her family to aid in janitor work and her efforts had been reported very satisfactory by Miss Hammond, the teacher in charge.

The superintendent said the lower grades were short of suitable reading matter which was much needed in addition to that contained in the school readers and he was authorized to buy what was needed.

Spring Vacation.

The superintendent said the central Illinois Teachers' association would meet in Bloomington April 12 and 13, and as he was one of the vice presidents he should attend. It wasn't worth while to make it obligatory on the teachers to go as the chief advantage in attending would be the inspiration gathered by being there. He however thought it would be wise to give the schools a short breathing spell about that time and suggested Thursday and Friday, April 12 and 13, as a mid-spring vacation and it was so voted.

The superintendent reported that the basketball tournament for this part of the state would meet in this city Feb. 23rd and 24th and as some 12 or 14 places would be represented it would crowd the gymnasium to accommodate the affair. The arrangements were placed in the hands of the superintendent and Principal Callahan.

The superintendent said a topical outline of study had been prepared with considerable work by himself and the aid of a number of teachers and leave to have the same printed was granted him.

Miss Johnson had reported the cases of sixteen children in the schools who greatly need glasses, costing \$2.50 each pair, but the parents were unable to furnish them. There was no money for them in the treasury or budget and she asked for instructions. It often meant a great deal to children as frequently without needed glasses, their advancement and success are well nigh impossible. The very expensive breakage of such articles was suggested. No action was taken.

In view of the rapid increase in the price of paper the superintendent was instructed to investigate and report regarding the purchase of supplies of tablets and paper for the coming year.

Will Watch Records.

The superintendent reported the need of suitable records which are now being kept by pupils and often mistakes are made. He said there were instances where such things were very important. For instance, a former pupil now in another city wanted to enter the high school there and had sent for his credits. It was important to have these things carefully recorded and authority to have it done was granted him.

President Lippincott displayed a handsome gavel the gift of the manual training class. It was suggested that it be a gift to him making it possible for the next class to do the same thing, but finally the article was received as a gift to the board and thanks to the manual training class were voted.

Member Hopper brought up the matter of basketball games scheduled and suggested that many times the boys are badly overworked very injudiciously. It was said it was owing to that fact that the Jacksonville team was so badly beaten at Quincy, two of the members of the team being out of condition owing to excessive practice at home. It was the sense of the board that something should be done to correct the matter but no action was taken and the board adjourned.

R. L. RAWLINGS DIED IN ARKANSAS

Lived for Years at Home of His Daughter, Mrs. C. A. Evans in Bluffs—He for Year

Bluffs, Ill., Feb. 5.—Word has reached us of the death of Roderick L. Rawlings, father of Mrs. C. A. Evans with whom he made his home and who left in November for Eureka Springs, Arkansas, to spend the winter.

Roderick Lafayette Rawlings, son of James S. and Cynthia A. Rawlings, was born Oct. 18, 1839, near Bloomington, Ind., the fourth child of a family of nine children and grew to manhood there. October 25, 1855 he was united in marriage to Mary M. Roseberry, to whom six children were born: Mrs. Robert Richie, Saybrook, Ill.; Mrs. Rawlings, Berryville, Ark.; Mrs. Ida B. Johnson, Springfield, Ark.; Mrs. Frank, living at the age of fifteen years and Mrs. C. A. Evans of Bluffs. Deceased was a kind husband and loving father and during his late years he has traveled extensively. About a year ago he was stricken with arterio-sclerosis from which he failed gradually.

About a week ago he contracted a slight cold which developed into pneumonia. He passed away at the home of his son, Lew Rawlings in Eureka Springs, Ark., early Sunday morning aged 86 years.

The remains will be brought to Bluffs and then to Mansfield, Ill., where the funeral will be held and the burial take place.

Miss Beatrice Brown of Springfield spent Saturday and Sunday with Miss Helen Rockwood.

Miss Planke of Mt. Sterling is the guest of Miss Emma Northrup.

Mrs. Raymond Newenham is visiting friends in Mt. Sterling.

Thomas Reid spent Saturday and Sunday with his parents, Mr. and Mrs. Andrew Reid of Springfield.

Dr. J. H. Walker, a former Bluffs resident but now of Stockton, Wash., arrived this week for a visit with old friends.

E. M. Burrus of Decatur visited between trains Saturday with his parents, Mr. and Mrs. P. C. Burrus.

NOTICE

Those who are indebted to the Western Union Telegraph Company are respectfully requested to call at the office or mail checks to cover delinquent accounts. The auditor is demanding a settlement.

F. W. Samuels, Act. Mgr.

MEREDOSIA

Miss Edna Skorsdover was a Jacksonville visitor Saturday.

Mrs. Edna Doyle and daughters Helen and June visited with Bluffs relatives Saturday.

Mrs. Louis Starks has been on the sick list the past week with an attack of lagrippe.

Mrs. Robert Freeland was a business visitor in Jacksonville Saturday.

Miss Flossie Nunn of Bluffs visited Sunday with her parents, Mr. and Mrs. Wm. Nunn.

Dr. F. C. Yeck was among the Jacksonville visitors Saturday.

Miss Ruby Stark is spending the week in Quincy studying the new spring styles of millinery.

Roy Lippert was attending to important business in Carthage Sunday.

Mrs. Richard Glenn of Jacksonville has been the guest of her parents Mr. and Mrs. Charles Thomas since Saturday.

W. T. Hedenberg of Versailles was a visitor here between trains Monday.

Mrs. Mary Burrus returned to Quincy Monday after a few days stay here.

James McLain visited Mr. and Mrs. Will Naylor in Jacksonville Thursday.

A daughter was born into the home of Mr. and Mrs. Newt Floyd on last Thursday.

BEECHAM'S PILLS

Largest Sale of Any Medicine in the World. Sold everywhere. In boxes, 10c, 25c.

Corns Loosen Off With Magic "Gets-It"

2 Drops Do the Work, Painlessly.

"I tell you, before I heard of 'Gets-It' I used to try one thing after another for corns. I still had them. I used bandages and they made my

toe so big it was murder to put on my shoe. I used salves and other things that ate off more of the toe than they did the corn. I'd cut and dig with knives and scissors, but now no more feeling for me. Two drops of 'Gets-It' did all the work. It makes the corn shrivel and loosen that you can just pick it right off with your fingers!"

There has been nothing new discovered for corns since "Gets-It" was born. It's the new way—the common-sense, simple, sure way. "Gets-It" is sold everywhere. 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Jacksonville and recommended as the world's best corn remedy by Armstrong's Drug store and J. A. Obermeyer.

INCIDENT MAY MAKE CRISIS MORE ACUTE

(Continued from Page 2)

plants, munitions works and facilities in case of need.

Ford Offers His Plant

Henry Ford, the manufacturer and pacifist, offered his great plant to the government without cost in case of war and volunteered to operate it himself without profit. His offer will be accepted if there be need.

From Secretary Baker the president received a first hand report of what is being done within the army.

By proclamation the president forbade further transfer to foreign governments of ships building in America. While this measure was conceived before the break came, its purpose is to prevent American merchant fleets from being depleted. It has not been decided to convoy such American ships as now are sailing into the war zone and no new regulations as to armament have been made. These two points are to be decided later.

London Announces Sinking

London, Feb. 5.—It is officially announced that Richard Wallace, an American seaman belonging to Baltimore, was killed by shell fire when the British Steamer Evestone was sunk by a submarine. The statement says that the survivors of the Evestone who were landed today report that their ship was sunk by shell fire from a German submarine, that the crew abandoned the sinking vessel and that the submarine then shelled the boats in which they took refuge, killing the captain and three seamen and severely wounding the second mate.

The official statement says: "Survivors of the Steamship Evestone, who landed today, report that their ship was sunk by shell fire from a German submarine. The crew abandoned the sinking ship and were shelled in their boats by the submarine."

"The master and three seamen were thus killed and the second mate was severely injured. Among the killed was Richard Wallace of Baltimore."

Think Ship May Have Resisted

Washington, Feb. 5.—The concern with which the government has been waiting developments since the break with Germany was not perceptibly increased by press despatches from London tonight announcing that an American member of the crew of the British Steamer Evestone had been killed by shells from a German submarine.

According to the stories of survivors, the master and three members of the Evestone's crew, including the American, were killed when they were leaving the ship in boats.

It is believed here that the shelling indicates the Evestone was resisting or attempting to escape and

that shells intended for the ship may have struck the boats.

Wallace Signed at Galveston, Baltimore, Md., Feb. 5.—Paul Black and "Ducky" Holmes, foremen for a cattle agent here, both of whom arrived at Newport News Va., last Thursday, said tonight that Richard Wallace was a close friend of theirs and that as far as they knew had no near relatives. They said he generally lodged at one of the seamen's boarding houses on the water front and that he gave Baltimore as his home when signing on. He signed for the present trip at Galveston, Texas. Black and Holmes said their ship passed the Evestone on their way back.

Torpedo British Steamer
London, Feb. 5.—The British Steamer Hurstwood, 1,229 tons, was torpedoed without warning at noon today. Three men were killed by the explosion and three seriously injured two of whom died after the crew was landed.

FIND MACHINERY OF GUNBOAT WRECKED

HONOLULU, T. H., Feb. 5.—Passed by Censor—Machinery and some of the boilers of the German gunboat Geier interned here were found wrecked and fire damaged today when naval and customs inspectors examined the craft.

United States detachments took charge of officers and crew of the Geier and the German Steamer Locksun and turned them over to the army for internment.

The Geier caught fire at her berth yesterday. The Geier will be taken to Pearl Harbor where it will be followed later by the Locksun. There are eight other German craft tied up here. The Geier's flag and pennant were left flying and a few of the crew remained aboard in accordance with internment regulations.

No Report of Damage
Washington, Feb. 5.—No report of damage to the German Gunboat Geier, interned at the naval station at Pearl Harbor, Hawaii had reached the navy department tonight.

LOWDEN TO GO BEFORE ASSEMBLY TODAY

Governor to Urge Adoption of Resolution Pledging Aid of Illinois to President.

Springfield, Ill., Feb. 5.—Governor Frank O. Lowden arranged tonight to go before the fifth Illinois General Assembly in joint session at 11 A. M., tomorrow to urge the adoption of a resolution pledging the aid of Illinois to the president in the crisis with Germany.

Senator Barbour expects to report his resolution for a constitutional amendment to give women full suffrage for adoption by the senate tomorrow. A fight is expected.

The statewide prohibition bill is to reach a vote in the Illinois senate Wednesday of this week, but will not have its first committee hearing in the house until Feb. 14, according to plans outlined tonight by Superintendent McBride of the Illinois Anti-Saloon League.

GERMANS RUSH TO SECURE CITIZENSHIP

Boston, Feb. 5.—On this, the first court day since the diplomatic break with Germany, there was a rush of German citizens to announce their intention to obtain American citizenship. Twenty men, most of them former members of the crews of the German vessels tied up at this port, sought to qualify for naturalization papers. The applications of all but one were accepted.

VAUDEVILLE PERFORMERS STRIKE

Boston, Feb. 5.—Vaudeville performers, members of the White Rats Actors' association, went on a strike in three theaters in this city and in one house at Lynn tonight. James W. Fitzpatrick, of Chicago, international president of the association, stated that similar strikes had been ordered effective tonight in Kansas City, St. Louis and other cities.

BRUNDAGE GIVES OPINION ON MERGER

PHILADELPHIA, Feb. 5.—A squad of eight marines commanded by a corporal from the Philadelphia navy yard, early tonight left for Tucker, N. J., to guard the German wireless plant there.

Officials at the yard said this action was taken on orders from the navy department at Washington. Feverish activity on the ten battleships of the Atlantic reserve fleet at the navy yard began today upon receipt of orders from Secretary Daniels that the fleet be prepared for immediate service.

The guard of armed marines patrolling the piers where the interned German auxiliary cruisers Prinz Eitel Friedrich and Kron Prinz Wilhelm are moored was materially increased today.

SENATE OVER-RIDES PRESIDENT'S VETO

(Continued from Page 1)

he. "It does not in my judgment touch the treaty of 1911. (the treaty with Japan, which modified by the so-called gentlemen's agreement) at all. They desired that we not make allusion to the gentlemen's agreement and we've made none. We have cast no reflection on any race or made no discrimination. The gentlemen's agreement will go right on if Japan chooses to uphold it."

"The vote of both house and senate," declared Senator Smith, "is a clear cut expression of the sentiment of the American people of the two fundamental principles involved in this bill—namely the economical and political principles, economic in that it was apparent to all students that resources yet to be developed should now be regarded as a patrimony of real Americans and not to be exploited for those who have had no part in the great struggle to bring us to our present state of wealth and education; political in that the influx of the adult foreigner without the hereditary influence of the spirit of our government, jeopardizes the stability. The committees of both house and senate had but one idea, the working out of but one principle, namely what was good for America. If an injustice appeared it was more than overbalanced by our paramount duty to our own people."

The literacy test provided for in the bill excludes from the United States all aliens over 16 years old, physically capable of reading, who cannot read the English language or some other language of dialect, including Hebrew or Yiddish. Any admissible alien, however, or any citizen of the United States may bring in or send for his father or grandfather, over 55 years of age, his wife, mother, grandmother, or unmarried or widow daughter, if otherwise admissible, regardless of whether such relatives can read.

Introduces New Bill

Immediately after the senate's action, Representative Gardner of Massachusetts introduced a new immigration measure to limit the number of aliens coming into this country to a total of 200,000 in excess of the outgoing aliens.

President Cleveland vetoed the first immigration measure with a literacy test provision. President Taft disapproved the second bill and in 1915 President Wilson rejected the third. President Wilson wrote his second veto message a few weeks ago.

Only thirty seven vetoes have been overridden in the history of the United States and but four of them have been within the last thirty five years. In 1882 congress passed a river and harbor bill over President Arthur's veto. In 1886, one of 524 pension bills vetoed by Cleveland was forced thru congress. In Roosevelt's administration a bill to extend time for construction of a dam on the Rainy River in Minnesota was passed despite executive disapproval and President Taft's rejection of the Webb-Kenyon interstate commerce liquor law was repudiated.

HIBERNIANS PLEDGE LOYALTY

Philadelphia, Pa., Feb. 5.—"The unwavering loyalty of 250,000 Hibernians in any conflict that might arise between this and any nation in the world," was pledged to day to President Wilson by Joseph McLaughlin, national president of the Ancient Order of Hibernians in America. Editors of twelve foreign language newspapers also pledged their loyal support to "this country and its flag."

TWO U. S. PASSENGER SHIPS NOW AT SEA

Kronland and New York Both on Way to New York From Liverpool.

New York, Feb. 5.—With the safe arrival today at Liverpool of the American Line Steamships Philadelphia and Finland and the arrival here from Liverpool of the St. Paul, only two American passenger ships now are at sea—the Kronland, which sailed from Liverpool Jan. 31, and the New York which left the same port Feb. 3. The Owego, an American freighter left here today for Genoa. Cable messages to officials of the American line in this city told of the arrival of Liverpool of the Philadelphia and the Finland. Officials of the American line announced tonight that the St. Louis detained here since Saturday on account of the international situation would not sail before Wednesday, Feb. 7, at noon.

Clearances here today were light. Only twelve vessels were reported by customs officers as taking out the necessary sailing papers.

Officials of the Scandinavian, Norwegian and Holland Lines said they were still awaiting instructions from their home offices.

CUSTOMS OFFICERS TAKE GERMAN SHIP

SEATTLE, Wn., Feb. 5.—The Hamburg-American freight ship Saxonia, 4,500 tons and the German ship Steinbek, 2,900 tons, which have been interned in Eagle Harbor here since the beginning of the European war were taken in charge today by federal customs officers. The officers and sailors were arrested. Customs officers charge that last night Captain Franz Heifer and the twelve members of the crew of the Saxonia removed and threw overboard parts of machinery.

SUSPEND GUARD MOVEMENTS

Nogales, Ariz., Feb. 5.—An order suspending all movements of national guard troops was received today at headquarters of the Nogales military district.

PAGE CONFERS WITH BRITISH SECRETARY

Conference lasts full—American Ambassador Later Talks With Spanish Ambassador.

London, Feb. 5.—Walter H. Page, the American ambassador, had a conference lasting a full hour with A. J. Balfour, the foreign secretary at the foreign office today and later another conference lasting more than an hour occurred at the American embassy between the Spanish ambassador and Ambassador Page.

It is assumed from the length of the discussions that the whole range of the questions growing out of the rupture of diplomatic relations between Germany and the United States was discussed with Secretary Balfour and that the conference between Ambassador Page and the Spanish ambassador related more particularly to the question of participation of Spain and of Spanish-American countries in action similar to that of the United States.

It is understood that no specific proposals resulted from Ambassador Page's call on Mr. Balfour. The view is taken that America's attitude in dealing with Great Britain and other countries is still that of a neutral. It is pointed out that a nation can be either neutral or belligerent and that its severance of diplomatic relations does not create belligerency.

Another phase developed thru today's exchanges is that for the present there are no proposals or suggestions of any concurrent action between the United States and the entente allies.

The Spanish ambassador's call at the American embassy came after several London papers had given prominence to a Rome despatch to the effect that Spain would follow the lead of the United States. But so far as can be learned, Senator Merry Del Val, the ambassador, has no definite advice confirming such purpose.

The growing Spanish uneasiness also is being increased because of the close relations between Spain, Portugal, the Spanish-Americans and Cuba, all of which are having their trade increasingly jeopardized.

Ambassador Page also is devoting special attention to maintaining Belgian relief.

MARINES TO GUARD TUCKERTON PLANT

Create Committee to Consider Questions Relating to Organization of House in Next Congress

Washington, Feb. 5.—Republican representatives at a caucus tonight discussed party measures generally and adopted a resolution creating a committee of twenty seven to consider questions relating to the organization of the house in the next congress.

The resolution offered by Representative Leader Mann was adopted as a substitute for one by Representative Anderson of Minnesota under which a complete legislative program for Republicans of the next house would have been framed.

The committee will be named soon by Representative Green of Massachusetts chairman of the caucus.

Many speeches were made at tonight's meeting all in a spirit of harmony. Representative Mann in urging his resolution said that no man should consider his own ambition in the speakership contest and that party effectiveness should be placed above personal consideration. He referred to the international crisis and to the necessity for broad statesmanship.

HOUSE REPUBLICANS DISCUSS MEASURES

SPRINGFIELD, Ill., Feb. 5.—Payment of a commission of \$228,000 to bring about a merger of the North American Union of Chicago with the Fraternal Aid Union of Lawrence, Kas., without the knowledge or approval of members of the former organization would be an abuse of their rights and would not be permitted by the courts says an opinion given Rufus M. Potts, state superintendent of insurance, today by Attorney General Edward J. Brundage. Certificate holders of the former organization were recently re-insured by the latter.

Subordinate councils of the North American Union have not had the proposed merger or re-insurance plan presented to them for ratification according to the statement of the case given the attorney general. The contract for the merger is said to have been executed by the supreme legislative body of that society.

The opinion was given in response to an inquiry by the insurance superintendent as to what action his department could take to protect the interest of the certificate holders in the North American Union.

THE BELGIAN RELIEF STEAMER SUNK

London, Feb. 5.—The Belgian relief steamer, Lars Krouse was sunk by a torpedo or a mine near the Belgian coast today. The vessel carried a cargo of wheat from Buenos Aires.

The Lars Krouse was a vessel of 1,460 tons. She was under Danish registry. She left Buenos Aires, Dec. 28 for Rotterdam.

REPORT SIGHTING WARSHIP.

Honolulu, T. H., Feb. 5.—The rumored presence of a squadron of Japanese warships in Hawaiian waters was given a measure of corroboration today by reports from passengers on the Toyo Kisen Kaisha liner Shinyo Maru, arriving from Japan. They told of having seen a cruiser early this morning. The war vessels reported in this vicinity are the Tokiwa, Iwata and Nishin.

GONZALES ON WAY TO U. S.

Washington, Feb. 5.—Alfredo Gonzales, Costa Rica's deposed president, is on his way to the United States aboard a fruit steamer, according to official despatches.

GERMAN OFFICIALS TO LEAVE NEXT TUESDAY

Reservations for More than 200 are Engaged on Scandinavian Liner Frederick VIII.

Washington, Feb. 5.—One week from tomorrow the whole corps of German officials in the United States including Count and Countess Von Bernstorff, the embassy suite, and consuls from all parts of the country will sail from New York for Germany.

Reservations for more than 200 persons have been engaged on the Scandinavian Liner Frederick VIII, leaving New York, Feb. 13, for Christiania. Former German consuls throughout the country, having turned their consulates over to caretakers to be re-opened eventually under the direction of Swiss officials, will start for New York in time to be on hand when the ship goes out.

Count Von Bernstorff, his wife, who is an American woman, together with the secretaries and official servants of the embassy will leave the capital Sunday night in a car especially provided thru the courtesy of the state department and adequately guarded to prevent any offense to the former ambassador and his suite.

Safe conducts have been requested by the state department of both Great Britain and France for passage thru the allied blockade and no doubt is felt that they will be accorded.

As yet no word has come from Germany as to events there or of plans for the departure of Ambassador Gerard for the United States.

New York was selected as the sailing port for the German officials late today after tentative plans had been made for them to go by way of some southern port to Cuba and then Spain or Italy. British officials are understood to have objected to this proposal advising that it would be wiser to avoid passage thru enemy territory.

DEALERS GIVE FULL WEIGHT

Burlington, Iowa, Feb. 5.—An investigation and secret checking of the coal passing over the city scales in this city by Deputy Pure Food Commissioner Mike Flynn today shows that the coal dealers here are giving full weight, in most cases overweight being given.

EIGHTEEN GERMANS ENTER UNITED STATES

NEW YORK, Feb. 5.—Only eighteen members of the crews of the German vessels here who now are held aboard the vessels by the federal authorities took advantage today of the privilege accorded them by the government of leaving the vessels by applying to the immigration authorities for admission to this country.

Seventeen seamen and a stewardess who asked to be admitted were taken to Ellis Island, passed the necessary examination and were allowed to enter.

COLD DAMAGES CROPS.

Atlanta, Ga., Feb. 5.—A cold wave during the past 48-hours has made heavy inroads on the winter fruit and vegetable crop in the southern producing belt. One message from a Florida grower received tonight by an Atlanta commission house said that in seventeen years no such crop damage had been wrought in the Florida fields. It declared all vegetation to well south in the peninsula had been frozen.

U. S. RELATIONS WITH AUSTRIA UNAFFECTED

VIENNA, Feb. 5.—via London After the receipt of news of the breaking off of diplomatic relations between the United States and Germany on Saturday, Frederick C. Penfield, the American ambassador, had a long conference with the Austro-Hungarian foreign minister, Count Czerine, after which it was announced that the relations between the United States and Austria-Hungary were not yet affected.

SENATOR WEEKS BLOCKS VOTE

Washington, Feb. 5.—Senator Weeks again blocked a vote in the senate today on confirmation of Dr. Gary T. Grayson, President Wilson's naval aid nominated to be a rear admiral.

THEODORE ROOSEVELT JR. NAMED A RESERVE OFFICER

Washington, Feb. 5.—President Wilson signed a commission appointing Theodore Roosevelt, Jr., a major of infantry in the officers' reserve corps. Mr. Roosevelt was a member of the Plattsburg training camp.

MONUMENT SITE DISCUSSED BY COUNCIL

Association Committee Seeks Authority to Have Memorial Placed in Central Park—Water and Light Department Reports Presented.

At the council session Monday reports of officers occupied the most attention. The annual report from the water department, signed by W. H. Cobb as superintendent, showed an increase in collections during the year 1916 of \$3,260.30. This excellent and comprehensive report is printed in full elsewhere in this paper and gives, in addition to the facts about collections, a general statement as to water supply, including the physical condition of the plant and the hydrants. Some suggestions as to needed improvements are also made.

Report on Public Property
Joshua Vasconcellos, commissioner of public property, presented his annual report for the year 1916 including data for both the light and water departments which are under his supervision. The report shows a saving in expenditures for the coal and oil used in the two departments of \$1,829.57. This saving was made notwithstanding the fact that prices for coal and oil were both higher in 1916 than for the year previous. This report, which is in considerable detail and sets forth interesting facts with reference to the light plant, the south side pumping station and the north side pumping station is also printed in full in this paper.

Major C. E. McDougall and Dr. C. H. Rammelkamp, representing the soldiers' monument association, addressed the council and presented a petition asking authority for the erection of a monument in Central Park. Under Department reports Commissioner Martin spoke of the need of new axes and wheels for the hose wagon and quoted the prices at which he could secure these needed repairs. As the amount is less than \$500 the commissioner can make the purchase without advertising for bids.

Want Monument Rather Than Building.

Speaking for the monument committee, Major McDougall said that it was the earnest desire of the old soldiers and others interested in the matter to have the monument completed in 1918, the centennial year. He said that the members of the committee were agreed that the monument should be in Central park and as there is some question as to exact ownership of the park, it has been deemed best to ask for authority from both the county board and the city in making plans for the erection of a monument. The commissioners all expressed themselves as desirous of taking whatever action is for the general good and the petition was received and placed on file. The council indicated that the advice of the city attorney would be sought and that immediate action would be taken.

Dr. C. H. Rammelkamp also spoke for the committee and said it was the understanding that the use of the park for certain purposes might be granted if the purpose was of a public character and for the public good. Mayor Rodgers said that when the square was paved that the county board declined to pay any portion, declaring that the title to the property was in the city. City Attorney Reeve said that when the tracks of the railway company were laid that an effort was made to have the tracks run thru the park instead of around, and when the case went to the supreme court a ruling was made that the park could not be used for anything except a public purpose and that it was not subject to the right of eminent domain.

The Rest Room Proposal.
In the discussion with reference to the monument Mr. Vasconcellos said that he had hoped that when the monument was erected the base might be large enough to provide for a public rest room. Mr. Martin was of the opinion that this was practical and could be easily accomplished. Mayor Rodgers told of another city where such a monument has been erected including rest room facilities. Major McDougall and Mr. Rammelkamp both indicated that when the petition was in circulation in which it was sought to bring the question before the people that all who signed were given the impression that it was the purpose to build a monument and at the time no suggestion of a public building had been made.

C. H. Ward referred to the purpose the council had some months ago of taking out liability insurance and said that the Travelers company, which he represents, was now in position to quote a premium rate of \$1,389.70 in place of \$1,800, the previous quotation, the estimate being made upon the payroll as quoted at the previous time. The council members stated that because of the city's financial condition they were not in position to contract for insurance with such a large expense, and they really thought it cheaper for the city to run the risk of being called upon to pay for injuries. If the money were available they said that they might look at the matter differently.

Officers Reports
The reports of officers were received and approved. Harry Summers, sexton for Diamond Grove cemetery, reported seventeen graves made during January and John Pires, sexton of Jacksonville cemetery, reported a like number.

The main facts in the report of Dr. A. M. King, city health warden, have already been published. Other facts were as follows: deaths during January—Under 1, one; 1 to 5, three; 5 to 20, one; 20 to 50, eighteen; 50 to 70, twentythree; over 70, four.

Contagious diseases: chicken pox, 13; diphtheria, 5; erysipelas, 1; measles, 10; scarlet fever, 5.

Report of Charles B. Gaff, city treasurer, showed a balance January 31 of \$11,199.44.

Report of R. L. Pyatt, city clerk, showed the following receipts: city clerk's office, \$102; Diamond Grove cemetery, \$287.50; Jacksonville cemetery, \$95.

Mayor Rodgers, Commissioners Cox and Widmayer reported that there was nothing of special moment to record from their departments.

CENTENARY CHURCH TO BEGIN CAMPAIGN

Committee Appointed to Initiate Conference "Claimants' Work in Jacksonville"—Revival Series Closed.

At a meeting of the official board of Centenary M. E. church Monday night plans were made for the campaign in Jacksonville for the conference claimants' fund and a committee was appointed to supervise the work of the local church in this movement to provide for the faithful minister in his old age. Dr. H. C. Gibbs of Decatur, campaign secretary for the Illinois conference, met with the board as did the Rev. F. A. McCarthy, district superintendent. The committee consists of C. W. Boston, F. J. Garland, W. B. Rexroat, E. G. Saye and C. S. Smith.

Interesting services Sunday night brought to a close the two-week revival series at Centenary church. The Rev. E. L. Pletcher, pastor of the church spoke in the morning and in the afternoon the gospel team had in charge the meeting for men. T. H. Rapp sang a solo and A. C. Metcalf, E. G. Saye and Mr. Fraser made short addresses. The pastor preached in the evening to an audience, which, in consideration of the wintry storm, was of good size.

Monday evening the young people of the church gathered for a supper in honor of Mr. Fraser, the singer. Wednesday evening there will be a special service at the prayer meeting hour and an address will be made by Dr. J. S. Daney of Chicago.

RESCUE SURVIVORS OF SHACKLETON EXPEDITION

Wellington, New Zealand, Feb. 5.—Seven survivors of the Shackleton Antarctic expedition who were stranded near Ross Barrier, have been rescued by the relief steamer Aurora which arrived at Cape Evans on January 10 with them on board. Captain McIntosh and two other men of the stranded party perished.

WILSON ABANDONS CUSTOM

Washington, Feb. 5.—President Wilson abandoned today his custom of conferring with senators and representatives on legislative matters on Monday and devoted his entire attention to the German situation. Because of the extreme cold he gave up his regular morning game of golf. Tonight he and Mrs. Wilson were the guests of Secretary and Mrs. Daniels at a formal dinner.

SPAIN PREPARING REPLY.

Madrid, Feb. 5.—via Paris.—The Spanish government continues the preparation of its reply to Germany's submarine notification. The reply probably will be dispatched to Berlin Tuesday or Wednesday.

MR. TANNER REACHES ST. LOUIS ON WAY HERE

E. O. Phillips of Chicago Tribune Also Coming for Informal Supper Tonight.

Because of the severe storm Sunday there was a disquieting story yesterday that Frederick C. Tanner would be unable to reach Jacksonville tonight for the informal supper to be given in his honor at the Colonial Inn. Last night Horace H. Bancroft, chairman of the committee on arrangements, talked by telephone with Mr. Tanner, who is at the home of his sister, Mrs. Post in St. Louis, and so it is certain that he will be here this evening. The supper was announced for 6 o'clock but the hour will more likely be 6:30. Business men who are to attend will be able to go from their stores and offices directly to the Inn.

Mr. Bancroft also received information that E. O. Phillips, staff correspondent for the Chicago Tribune will be here for the supper. Mr. Phillips is a long time friend of Mr. Tanner's and as a Tribune corres-

pondent attended the constitutional convention in which Mr. Tanner was such an active figure. Reservations have been made for eighty.

WOMEN ORGANIZE COMMITTEE

Washington, Feb. 5.—Women who have figured prominently in suffrage activities organized a committee here today to support former Secretary Bryan's suggestion of a referendum on whether the country desires to go to war with Germany for any reason other than actual invasion. The committee will co-operate with one formed in New York.

JAPANESE CONSUL WEDS ST. LOUIS GIRL

Springfield, Ill., Feb. 5.—International warfare failed to interfere today with the romance of Henry Masata Nomura, Japanese Consul at St. Louis, who was married here this afternoon to Miss Lovenda L. Heidinger, also of St. Louis, whose parents were born in Germany. The couple were married by Rev. Father Timothy Hickey.

PAUL ALFRED REEBS DIES

London, Feb. 5.—Paul Alfred Reebens, dramatic author and composer, died today at Falmouth.

WITH SICK PEOPLE

Van Wyatt continues very ill and little change is noted in his condition. Henry Maul was reported much worse yesterday and his condition is critical.

J. T. Neal of Murrayville was hardly as well yesterday tho there seems to be a fair chance for his recovery.

Mrs. Joseph Bergschneider, who has been ill for the past two weeks at her home in Alexander, remains about the same.

Theodore Borchertold of Alexander is very ill of pneumonia.

FRANKLIN BASKETBALL.

The Franklin Independents are preparing to meet the Ozanam Catholic club of Springfield at Marquette hall and a fast game of basketball is the expectation of all. The Franklin lineup will include Stewart, Teaney, Burnett, Boocup, Hart and Norman Seymour. After the game the visitors will be entertained at a social in the hall. The Ozanam club has been showing good form this season and the game is being looked forward to with interest.

COLDS

A & A Laxative Cold Tablets

Made from a form of quinine giving the same action as the "old fashioned" quinine without head buzzing or ears ringing. Gets the cold, grippe, fever, ague, headache or biliousness at once. Nothing else like it. Away ahead of others.

Price 25 cents.

MORTUARY

Biggs.
Corbell Sexton Biggs, daughter of Mr. and Mrs. Albert Biggs, died at the family home, 710 East Chambers street Sunday morning at 5 o'clock of pneumonia. She was born in this city August 5, 1911. Besides her parents she is survived by one brother, Kenneth Earl Biggs. Funeral services will be held from the residence this morning at 10:00 o'clock in charge of the Rev. M. L. Pendergast, pastor of Central Christian church with burial in Diamond Grove cemetery.

CO. B. INSPECTION.
Captain McElroy of the United States Army was in the city Monday afternoon and evening and conducted an inspection of Co. B. The report of the commanding officer was not made public. It is not understood to be encouraging. Despite the hard work and interest of some of the officers and a part of the men, the company has not recently been in good organization. Since the Mexican crisis early in the summer the company roster has decreased and regular drill has not been held.

The Art Association of Jacksonville will meet this evening at 7:30 in the David Strawn Memorial building. Mrs. Myra Henderson Wilson of Springfield will make an

FATHER JOSEPH COSTA DIES IN GALESBURG

Was Pastor of Church of Our Savior—From 1866 to 1871—Funeral This Forenoon

The Rev. Father Joseph Costa, pastor of the Church of Our Savior in this city from 1866 until 1871 died in Galesburg last Friday evening aged 94 years. Funeral services will be held in Galesburg this morning at 10 o'clock. Requiem mass will be celebrated by Bishop Edmund M. Dunne of Peoria and the Rev. Father Frank V. Shannon vicar general of Florida diocese will preach the funeral sermon.

Father Joseph Costa's service in the church covered a period of many years. He was always popular with his parishioners and news of his death will be received with genuine regret by older members of the Church of Our Savior who have many pleasant recollections of his pastorate.

When Father Costa came to Jacksonville the church stood on North Sandy street where Snyder's ice plant is now located. The parish house stood facing on North Main street about where the old office of the Snyder plant was located and just south of that was the parochial school.

It was Father Costa's mission according to one of Jacksonville's well known citizens to erect suitable places of worship and school buildings. Father Costa succeeded Father Clifford. He immediately began plans for a new church and the present Church of Our Savior was erected in 1868.

After its completion he turned his energies to other building work and a rectory was built on East Court street which was used by the Dominican Sisters for a number of years and is now a part of the parochial school system.

With the completion of the church and rectory Father Costa set about the work of building a new parochial school. This building was well under way when Father Costa was called to other fields of labor and was completed under the pastorate of his successor, Father Mackin. The latter died in December only a few months ago.

Father Costa had been pastor of Corpus Christi church in Galesburg for more than thirty years. He was a man of brilliant attainments and was a splendid musician. He was widely known in the church and was a man greatly beloved by all. His service to the church extending over a period of so many years was one of inestimable value and the influence of his work and life will be impressed upon future generations.

ATTENTION

The C. C. Phelps dry goods company requests that all accounts due Phelps & Osborne be paid at once so the books of the old firm may be closed.

CARD OF THANKS.

We wish to express our appreciation to the friends who so kindly extended aid during the illness and after the death of A. B. Core. We wish to thank especially the members of the lodge and to thank friends also for the many flowers.

Mrs. A. B. Core and Family.

WEEK OF PRAYER SERVICE

AT WOMAN'S COLLEGE
"The Social Element in Religion" was the topic of Dr. J. S. Daney of Englewood Monday evening, in an address to students of Illinois Woman's College at the 7 o'clock chapel hour. This was the first service to be held during the week of prayer observance.

Monday evening Dr. Daney and the Rev. and Mrs. F. A. McCarty were dinner guests of Dr. and Mrs. Harker.

START NEW PLAN FOR PAVING NEAR SQUARE

Board of Local Improvement Will Propose Cretose Blocks on Concrete Base.

At a meeting of the board of local improvements following the council meeting Monday morning the resolution providing for the pavement of certain streets in the business district with tarriva was abandoned. Subsequently E. M. Henderson, city engineer, was instructed to draft a resolution providing for the pavement of the same streets with cretose blocks on a concrete foundation. It is understood that he present curbing is to be left where in good condition and in other instances that a concrete curb will be laid. The board has changed the specifications for these streets because a majority of the property owners seemed to be in favor of an entirely new pavement and to prefer the cretose blocks.

As previously mentioned, the streets include in this ordinance are South West street, West Morgan street, South Sandy, College avenue, South Mauvaisterre, East Morgan, North East, East Court, North Mauvaisterre, East and West North street and ending at the corner of North Sandy and West North street. The portion at the corner of Sandy and North street and the corner of North West and West State street has been provided for in another ordinance.

A petition was presented from property owners on South Mauvaisterre street asking for a tarriva pavement on that street from East College avenue south to the creek. This petition was signed by Owen Magill, M. C. Armstrong, M. VanHouten, John Kerns, M. R. Fitch, Lena and Sophia Degen, J. S. Peckham, Pierston Howells, Harry Devore and J. A. Mace. The engineer will prepare an ordinance calling for a pavement from College avenue to Franklin street.

CHILD NEAR DEATH FROM GASOLINE BURNS

Leta Frances Garrett, six year old daughter of Mr. and Mrs. William Garrett of Arendville, is near death at her home as the result of burns sustained Saturday afternoon at 2 o'clock when a gasoline can in the cellar, near which the little girl and her brother, William Garrett, eight years old, were playing, exploded and set fire to her clothing. The little girl ran to her mother, who, in putting out the flames, was herself burned. Dr. A. E. Streuter was called and everything possible was done to alleviate the child's suffering.

EUREKA COLLEGE FIELD MAN SPEAKS AT CHURCH

Louis O. Lehman, field agent for Eureka college, was in the city Monday in the interests of that school, the only one in the state under management of the Disciples of Christ. Monday evening at 7 o'clock a luncheon was served to forty people in the church dining room and Mr. Lehman spoke in an interesting way of the college and its work.

COLD WEATHER SIGNS.

Many "cold weather" omens were observed by Jacksonville people Sunday night and Monday. Monday forenoon there could be seen the best appearance of "sun dogs" in the last several years. The phenomenon was apparent at sunrise and was of several hours' duration. Sunday night there was a pronounced lunar halo with four well defined light spots in which the rainbow colors could be seen. Toward morning the moon occupied a position in the center of a luminous cross of cloud-like haze. As the moon sank toward the horizon two of the light spots disappeared but the cross became brighter.

W. H. PASCHALL BURIED AT DIAMOND GROVE

Funeral Services Held Monday for Well Known Citizen—Dr. McCarty's Tribute.

Funeral services for William H. Paschall were held from the residence Monday afternoon at 1 o'clock in charge of Dr. F. A. McCarty. A male quartet composed of William G. Wofe, John Lazenby, C. A. Rowe and W. W. Gillham sang suitable hymns. The flowers were cared for by Ellis Gully, Benjamin Gully, Homer Paschall, Helen Paschall and August Bollhorst. Burial was in Diamond Grove cemetery, the bearers being Allison Thomason, E. E. Carter, Marshall Stout, William Davidson, Louis Perbix and Louis Watt.

A Loss to the Community.

Dr. McCarty took as his text II Timothy 4-7, "I have fought a good fight; I have finished my course; I have kept the faith." He said in part: "When a man like William Paschall dies the world suffers a distinct loss and everyone who knew him feels that he has suffered a personal loss. For William Paschall belonged to each of his acquaintances. I have chosen this scripture not so much as a text but as an expression of the life and experience of William Paschall. Death is always painful and sad, but we do not have here the problem which always confronts us in the death of children or the young. William Paschall had lived the allotted time. He had finished his work. His family were mature and his going seemed to fit perfectly in with the divine plan.

"The universal verdict has been that William Paschall was a good man. No higher tribute could be paid to anyone than that. More than to be a great man or a learned man or a wealthy man is it to have it said, 'he was a good man.'

"As we stand at the end of a completed life we are enabled to see it in its totality—as we are not able during the life. We never see anything in its true perspective when we stand close to it. So when we are close to any man during his life little things that may annoy us bulk large and keep us from appreciating the full value of that life. But as we look back upon it after its completion we can come nearer estimating its true value. And as we look back upon the life of William Paschall we feel that a real giant and a real prince has gone from us.

Had Many Virtues.

"He was a wise man. He had that sort of mature wisdom that comes from always following one's best light. He was a well rounded man, strong in every phase of his life. I need not speak of William Paschall as a husband and father. We cannot over-value that old-fashioned loyalty and devotion to a man's home and family. He was a good neighbor, the kind of a man with whom you want to do business and to have social fellowship. He was a loyal and valued citizen. He was a valuable man as a farmer. Altho he had come to the time of life when most men retire he never retired. He still expected to do the full day's task and no man can estimate his value as one of this community, as an official member of Mt. Zion church.

"There are two sides to death. It is filled with gloom mostly because we look at it from the outside and only see the exterior. There is no answering clasp of the hand, the loved voice is stilled and we say our friend is dead, but, after all we know he is alive somewhere in God's kingdom, engaged in the activities which are a part of the divine plan. The inner meaning of life which we all know we do not see except with the eye of faith. As love prepared the way for us in this world, much more does love prepare for those who go to the great beyond. After all, life here and the life in the great beyond is one and death is a mere incident.

A Challenge to Service.

"Paul spoke of his own death, which was to be a violent one, as 'setting sail.' He says, 'The time of my departure is at hand.' The term he uses is a nautical one and means losing the moorings. He thought of death simply as sailing out of one port into another. Jesus spoke of death as leaving this world and going to the mansions in the Father's house. So it is that on our side there is the sorrow and the pain and the heartache, but with him is the glory and the triumph and the victory. When these sad part men pass away we constantly ask, 'Who will take their place?' And we feel we do well if someone can take up the work which they lay down. But really those who come after these men ought to do better work than they did, for they are standing upon their shoulders and building upon their foundations. William Paschall's death should be a challenge to those of us who come after to do the largest work of which we are capable."

ADVOCATES UNIVERSAL MILITARY TRAINING

New York, Feb. 5.—Universal military training was advocated by John D. Rockefeller, Jr., when he seconded a plea made by Mayor John P. Mitchell at a dinner tonight at the Young Men's Bible Class of the Fifth Avenue Baptist church of which Mr. Rockefeller is a member.

DESTROYER PUTS TO SEA.

New York, Feb. 5.—The United States torpedo boat destroyer Preston, commanded by Lieut. Commander Sagrader put to sea quietly today, after having been provisioned for a long cruise, it was learned tonight.

"BOB" JONES MAY COME FOR MEETING HERE

Local Churches Have Two Weeks in Which to Make Plans

At the conference of ministers and laymen held yesterday at noon at the Y. M. C. A., G. H. Meinardi, business manager of the Bob Jones evangelistic party, was present and outlined the basis on which Mr. Jones and party will come to Jacksonville for a series of meetings if the services are desired. W. W. Thobald presided the earlier part of the session and after he had gone to fill an engagement Mayor H. J. Rodgers presided, with C. H. Story serving as secretary. The Ministerial union is desirous of holding a union evangelistic meeting in this city some time during the year but all of the churches have not yet formally settled upon the proposition.

After discussion of matters related to the proposed meeting it was arranged that the churches here will have the right to decide any time within the next two weeks as to what their wishes are about securing Evangelist Jones. If the city desires the services of Mr. Jones and his assistants they will come to Jacksonville September next for a six weeks meeting. Mr. Meinardi outlined the plan which Mr. Jones follows. They would come here if the churches would first underwrite a subscription pledge of \$6000 to be used for the erection of a tabernacle, publicity and various expenses incidental to such a revival series, including the moderate salaries for the evangelist's assistants.

Plan of Meetings.

The plan is to take collections at each service and at the end of three weeks if the amount collected is not sufficient to defray the expenses, some special effort at collection is made and then finally the guarantors are called upon if there is a deficiency. Mr. Meinardi said that in the meetings thus far held by Evangelist Jones that the guarantors had never been called upon to make good their pledges. The payment of the evangelist is to be a free will offering at the services on the final day of the series. Evangelist Jones is a southern man, Montgomery, Ala., having been his birth place. He is said to preach direct gospel sermons, is not sensational and his sermons are not of a kind to give offense to those persons who do not join in the revival effort.

Successful revival meetings are now in progress in Bloomington and other Illinois cities in which the evangelist has worked, and in Quincy and Aurora.

Citizens Give Impressions

Before Mr. Meinardi was presented yesterday, brief remarks were made by Mayor H. J. Rodgers, Rev. F. B. Madden, C. S. Smith, W. E. Hall and Joshua Vasconcellos. These men all attended one of the Jones meetings in Bloomington one night last week. They all expressed themselves as greatly pleased with what they heard at the revival meetings and said that the comments of those persons interviewed in Bloomington indicated that the churches were well satisfied. Mr. Meinardi in referring to the possible visit of the evangelist, said that Mr. Jones' idea was not so much the number of converts as the sincerity of his work and the effectiveness after the revival series had closed. It was the understanding at the meeting yesterday that the ministers will take up the matter with their official boards and three representatives of each church will be appointed to attend a later conference, where the whole question will be decided.

Guest tickets for the Woman's Club meeting to be held at Illinois Woman's College Saturday, Feb. 10th, can be obtained at Brown's Music store. 35 cents.

THREE ARE BADLY HURT IN WRECK

Rock Island East Passenger Train Goes Into Ditch near Walnut, Ia.—Twelve Less Seriously Injured.

Walnut, Ia., Feb. 5.—Three persons were probably fatally injured and 12 others were less seriously hurt when Chicago, Rock Island & Pacific fast passenger train No. 7, Chicago to Denver, was wrecked two miles east of here tonight. An observation car, two Pullmans, a combination chair and smoking car and a baggage car were thrown down a ten foot embankment into a ditch.

The conductor and engineer of the train denied the cause of the wreck was known.

Fire starting from a stove in the smoking car broke out almost immediately in the wreckage. The fire department from Walnut extinguished it after one of the cars had been burned.

Physicians from Walnut gave first aid to the injured and a relief train summoned from Atlantic brought additional assistance. The injured were taken to Atlantic.

The train was running at the rate of 45 miles an hour when the first of the nine coaches left the track and tumbled down an embankment. Two other cars were derailed but were not ditched.

Relief work was delayed by the fact that the relief train from Atlantic was unable to approach nearer than 300 yards of the wreck because of the misplaced rails.

A train was sent from Council Bluffs to take passengers who were able to resume the trip to Omaha and Council Bluffs.

REPORT GOOD HATCHES.

George W. Hamilton reported Monday evening that from a setting of fifteen Buff Orpington eggs he had a hatch of thirteen fine chicks. James C. Weber, from a setting of 261 Orpington eggs had 109 chicks hatch.

CIRCUIT COURT SESSION FOR FEBRUARY OPENS

Judge F. W. Burton Here to Preside
for Two Weeks—Orders Entered
in Many Cases

Judge F. W. Burton opened the February term of the Morgan county circuit court Monday. Entries were made in quite a large number of cases and more time was given to argument in the case of Mary J. Dobyns, et al. vs. Sherman Spencer et al. This is a bill in chancery involving property rights and the city of Jacksonville is an interested party, because the property was purchased when taxes for public improvements were unpaid. The case was taken under advisement by the court.

As previously indicated, there will be no jury trials at this term. Judge Burton hopes to get considerable business transacted and out of the way as he cannot possibly remain here more than two weeks. After winding up the business here, he faces a heavy term at Carlville. The following docket entries were made Monday:

Law Cases

George C. Olinger vs. John S. Shepherd and McClelland Shepherd, assumpsit. Cause dismissed by the plaintiff at his costs.

Mabel Wright vs. Fay Roberts, trespass. Cause continued for want of declaration.

People vs. H. E. and Lena A. Fry, debt. Cause dismissed for want of declaration at plaintiff's cost and on motion of the defendant.

Chancery

Springfield Home for the Friendless, et al. vs. Caroline B. Scott, partition. Trustee's report of sale of land in Montgomery county approved.

In the suit of Thomas Stubblefield vs. Mary E. Cranfield et al., the receiver's report was filed and approved and distribution ordered and the receiver was discharged.

In the foreclosure suit of Lennie F. Berry vs. Mary Rohrer et al., the time for the filing of master's report of sale was extended to Feb. 28.

In the divorce case of Mary Woodbridge vs. William J. Woodbridge, an order of continuance was issued with alias writ.

In the partition proceedings of Anna E. Reinbach et al. vs. Frances Irene Tietgen, et al., the master's report was filed and approved.

In the foreclosure suit of John Van Os vs. Leonora Kennelbrow et al., on motion of the complainant the order for appointment of receiver was set aside and the cause was stricken.

In the foreclosure suit of George W. Ross vs. Van Worden Osborne, Hugh P. Green was appointed guardian ad litem for infant defendants and an order of default was taken against all adult defendants.

In the partition proceedings of William K. Gibbs vs. Mary Emma Gibbs, the final distribution was approved and the cause was stricken.

A like order was entered in the partition suit of John W. Marshall et al. vs. Thomas Marshall et al.

In the partition case of Milton L. Harney, Jr. et al. vs. Robert L. Harney, administrator of the estate of Milton M. Harney Sr., Richard C. Reynolds was appointed to take charge of the fund allotted to the widow in lieu of dower.

In the suit of Mrs. Lillian B. Moody vs. William R. Moody for separate maintenance, a motion by the complainant for continuance was allowed. It was set forth in this petition that one of the complainant's witnesses could not be present at this time.

The suit of Alonzo H. Kennelbrow vs. Continental Insurance company was dismissed by the complainant on his own motion at his cost.

In the bill brought by Ada Greenwalt vs. Henry Dryden, the default of the defendant was noted.

In the suit of Manilla E. Richards vs. Clarence J. Richards for separate maintenance, William T. Wilson was appointed guardian ad litem for the defendant.

The C. B. & Q. railroad in the injunction proceedings brought by the city of Waverly to stop the laying of a track, entered a demurrer.

An order of default was made in the divorce proceedings of Howard F. Davis against Clara Margaret Davis.

Default orders against the defendants were also entered in three other divorce cases: John Roy Decker vs. Stella Decker; Rolly O. Hoover vs. Grace Hoover; Laura Seymour vs. Glenn Seymour.

In the matter of the adoption of Irma M. Knapp by Elam R. Fraser, leave was given to the petitioner to amend the petition.

The quarterly report of the master in chancery was filed and approved.

STOMACH SYMPTOMS

A leading physician of Chicago says: "Merely easing the pain with narcotics to give relief is a long way from a cure for stomach trouble. Besides the danger of neglect or inadequate treatment may lead to more serious maladies. What appear to be only minor troubles are often the symptoms of gall stones, acute indigestion, gastritis, constipation, auto-intoxication, yellow jaundice, appendicitis, cancer and ulcers of the stomach and intestines, or other fatal ailments." Stomach sufferers should take warning. Do not have blind faith in treatments that are giving no results. Much suffering could be avoided, many surgical operations prevented, scores of lives saved had May's Wonderful Remedy been taken in time. It is not a long drawn out treatment. It acts on the very source and foundation of stomach, liver and intestinal ailments, eliminating from the system the hard, poisonous catarrhal accretions and shows them to you. Try a dose tonight—tomorrow your days of torture will be over and another friend will be added to nearly a million grateful human beings, many who declare May's Wonderful Remedy has saved their life. Get it from your druggist today—tomorrow may be too late. For sale by Armstrong's drug store, and druggists everywhere.—Adv.

B. C. PYATT LONG TIME MAIL CARRIER, DIES

Succumbed to Pneumonia After
Brief Illness—Deceased Had Given
City Faithful Service in Post
Office Department.

Benjamin C. Pyatt, one of the oldest and best known of local government employees died at his home on 519 West College street Sunday evening at 5:40 o'clock of pneumonia. He was taken ill of la-grippe about ten days ago and the malady developed into pneumonia which finally resulted in death.

Benjamin Campbell Pyatt was the son of Oliver J. and Josephine Jones Pyatt and was born in this city August 24, 1869. When a child his parents removed to Missouri where they resided for about thirteen years, when they returned to Jacksonville. Mr. Pyatt was educated in the public schools of the city and later supplemented this with a course in Brown's Business college.

Soon after graduating from the business college, Mr. Pyatt entered the government mail service. He was appointed a substitute mail carrier April 10, 1890 and was appointed a regular carrier July 1, 1891. In length of service he was third in the city, Hithy Platt and John Higler being the only two carriers who have been longer in the service.

He was a member of Central Christian church, having joined that denomination early in life. He was a member of Jacksonville Lodge No. 152, Knights of Pythias and of H. derim Temple No. 62, D. O. K. K. He was also a charter member of Jacksonville branch No. 453 National Association of Letter Carriers.

Mr. Pyatt is survived by two sisters, Mrs. Edith Dunlap and Miss Josephine Pyatt and one nephew, Harold Dunlap, all of whom reside at 519 West College street.

Mr. Pyatt was a man of excellent qualities. He was steady, reliable and always faithful in the discharge of his duties. He was of genial disposition and had won many friends in the community.

Funeral services will be held from the residence this afternoon at 3 o'clock in charge of the Rev. M. L. Pontius, pastor of Central Christian church. The Knights of Pythias will also carry out the funeral service of the order. Burial will be in Jacksonville cemetery.

WOODSON

The all day meeting scheduled for Sunday, Feb. 4, was postponed one week on account of the severe cold. Rev. Mr. Oldham, the pastor announced Monday that the program would be carried thru next Sunday, just as announced.

Mr. and Mrs. Richard Self will leave Tuesday for Hot Springs, Ark., to make a stay of several weeks.

Louis Wall butchered eight hogs Monday for his own use.

Wendell Dugger of Scottville was here over Sunday, a guest of Dr. G. W. Miller and family and Miss Marie Megginson.

Miss Lucille Megginson was in Jacksonville Saturday and a part of Sunday. Miss Megginson visited Miss Lucille Kastrup.

William Rook shipped a car load of butcher stuff Monday to the East St. Louis market.

ROAD BUILDERS MEET IN BOSTON

Boston, Mass., Feb. 5.—Registration for the annual convention of the American Road Builders' association, which meets in Boston this week, indicates that more states will be officially represented than at any previous convention of the association. Every section of the country is represented by the delegates already arrived in the city. The convention will hold its first session tomorrow morning. Governor McCall and Mayor Curley will welcome the delegates and A. W. Dean, president of the association will deliver his address. The remainder of the week will be devoted to the discussion of road-building problems by experts of wide prominence.

One of the most important features will be the annual National Good Roads Show, which will be held in conjunction with the convention. This will be an exhibition of the latest improvements in materials and labor-saving appliances used in road building and street paving, including machinery, motor-trucks, surveyors' instruments, and samples of all paving materials in present day use, as well as demonstrations of recently perfected methods of building and maintaining roads and streets.

PROBATE COURT

In the estate of E. O. Mayer, the final report was received and the estate declared closed.

In the estate of Margaret Duvendack, final report was approved and distribution ordered.

In the estate of C. E. Jones, the petition for sale of real estate to pay debts was allowed.

In the estate of Martha Whiteman, the final report was received and distribution ordered.

In the estate of Charles Lazenby, the final report was received and estate declared closed.

In the estate of Madison C. Neece, petition to sell real estate was allowed.

In the estate of W. W. Dyer, the petition to fix and allow fees of the attorneys and guardian ad litem were allowed.

SPRING STYLE SHOW

Chicago, Ill., Feb. 5.—Brilliant cheviots, Jersey cloths, Rajah hilks in plaids and stripes, will blossom forth in the new cuts of suits and gowns at the 1917 Spring style review which opens tonight at the Strand theater under the auspices of the Chicago Garment Manufacturers' association. At six evening and two matinee performances there will be a series of tableaux in which models will display the most up-to-date wearing apparel for women.

MANCHESTER

Claude Heatop was a Jacksonville visitor Wednesday.

E. O. Hess was called to Ulica Thursday by the serious illness of his mother who recently suffered a paralytic stroke and is now in a critical condition.

Miss Lucy Laws of Waverly spent Wednesday night at the home of Mr. and Mrs. R. C. Curtis.

Roy Curtis spent Thursday in Jacksonville.

Mrs. Ella Barnard of Roadhouse visited her mother, Mrs. Mary Pope Wednesday.

Mrs. Lennie Kelly of White Hall returned to her home Tuesday after spending several days with her mother, Mrs. Mary Elson.

Cennick Andrus spent Wednesday in Murfreesboro.

Mr. and Mrs. Haldeman and children of Kansas and Mrs. Myrtle Fungston of Colorado Springs, Colo., arrived Thursday to be present at the sale of the late John's property Saturday, the late John's property.

While here they are visiting their uncle, James Cooksey.

The property for sale consists of a farm west of Manchester and a house and lot in town. This property is to be sold at public auction Saturday afternoon from the Farmers and Traders' Bank building.

Mrs. O. O. Hodges, a former resident of Manchester, now residing in Laredo, Texas, with her daughter, Mrs. Mildred Hyatt, visited with friends here from Thursday until Friday when she went to Jacksonville to spend several days with relatives. Mrs. Hodges will again visit here before returning to her home.

Friends of Mrs. Hodges and her family will be interested to know her son Geo. is located on the Mexican border as a member of the National Guard.

Mrs. Thomas Rough and daughter returned to their home in Jacksonville Friday after a brief visit with Mrs. Rough's mother, Mrs. Margaret Wyatt.

Miss Mary Bell left Friday for a visit with her friend, Mrs. Ben Maurice of Hopedale, Ill.

Mrs. John King of Winchester is visiting her parents, Mr. and Mrs. Louis Marsh. Mr. Marsh has been in a critical condition for the past several weeks and continues to gradually grow weaker.

The teachers' reading circle met Friday evening at the home of Mr. and Mrs. F. F. Fahrkopf. Owing to the unfavorable weather conditions only a few members were present. The few who attended enjoyed a most interesting meeting.

Tessie Cochran has been confined to her home this week with an attack of la-grippe.

Friends of Ethel Clark, who underwent an operation at a sanatorium in Jacksonville several days ago, will be glad to know her condition is steadily improving.

Owing to the inefficiency of the heating plant the grammar room of our public school under the supervision of Chas. Leitz, was dismissed for the entire day Friday.

BLUFFS

Bluffs, Feb. 5.—Misses Emma Northrup, Lottie Middendorf and Marie Robble left Thursday evening to attend the funeral of their friend, Miss Annan Norman, who died of pneumonia or Wednesday. Funeral services were to have been held at 10 a. m. Friday but her father, Fred Norman also died from pneumonia at 3 a. m. Friday. A double funeral will be held Sunday at 10 a. m. Richard and Edward Vortman left Saturday for a visit with friends.

J. Fowler and daughter Gertrude were shopping in Hannibal, Mo., Saturday.

Mrs. Charles Collins entertained a number of the little friends of her son Harry at her home Saturday afternoon. It being his 5th birthday. Refreshments were served and the little people enjoyed the afternoon to the fullest extent. Each guest presented him with a birthday souvenir.

Joseph Smith, who has been in Bellevue, Kans., for the past ten months returned home Wednesday for a visit with his parents, Mr. and Mrs. T. J. Smith.

Mr. and Mrs. M. E. Bennett left Wednesday for an extended visit with relatives near Denver, Colo.

The Woman's club are preparing to give a play in about two weeks for the purpose of raising funds to place a floor in the gymnasium of the public school, the cost of which will be about \$10. A part of the money is being raised by private subscriptions.

Mrs. Elba Grey will leave Monday for St. Louis where she will purchase her spring stock of millinery.

WHITE OAK GROVE

Mrs. Cora Houston and Mrs. Maude Vorhees entertained the Willing Workers Thursday afternoon. A splendid lunch was served and the following program was carried out:

Song—"The Church in the Wilderness."

Prayer.

Scripture Reading.

Reading—Mrs. Hattie Ogle.

Recitation—Mary Catherine Bourne.

Plan solo—Mrs. Alice Charlesworth.

Reading—Mrs. Bessie Bourne.

Vocal duet—Misses Edna and Alma Ogle.

Reading—Mrs. Golden Brainer.

Two new members were added, Mrs. Lottie Gish and Miss Grace Daniels, making a total of thirty-one. The society will meet next month with Mrs. Hattie Ogle and daughter, Alma.

Mrs. Walter Houston received a card from Camp, N. Dakota, saying a 5th son had come to live with Mr. and Mrs. John R. Alexander. Mrs. Alexander was formerly Miss Ma Harshaw of Jacksonville, Ill.

Charlie Long has been quite ill for a few days.

Ed Smith is very sick at this writing.

Quite a number of the young people were entertained recently at a social dance at the home of Mr. Pratt.

The children of Charles Ator have been suffering from chicken pox but are now much improved.

FIRE ALARM MONDAY MORNING

Sunday was a quiet day in the fire department not an alarm being received during the day. It was a welcome rest to both men and horses after the strenuous work of the past few days. However, Monday morning at 9 o'clock an alarm was received from the residence of A. W. Pitner, 464 South East street. Sparks from a chimney had started a fire in the roof. The blaze was extinguished with but small damage.

WILL REBUILD RESIDENCE

William H. Stull has the contract for rebuilding the Capt. Smith residence which was damaged by fire a few weeks since and has already commenced work.

What to Do for Eczema

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 25c or \$1.00 for extra large size, get a bottle of Zemo. When applied as directed, it effectively removes eczema, greasy, stops itching, and heals skin trouble also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, penetrating, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

excellent sermons, one by Dr. Kemp of Bloomington and one by Dr. McCarty of this city, the communion service and the fine dinner prepared by the ladies. Had the weather been favorable the church would not have held the people who would have been present.

The Sunday school was divided into two groups, the young in charge of their regular teachers, and the older taught by S. W. Nichols. A pleasing feature of this part of the program was the reciting of the 23rd Psalm by Margaret Wain.

The pastor, Rev. G. T. Wetzel, presided and introduced Dr. Kemp. Dr. Theodore Kemp prefaced his sermon with some remarks highly complimentary regarding the new building and referred in a touching manner to the history of the location and the noble ones who have gone before. Of his sermon only a few outlines are given.

The Greatness of the Bible

He took for his text Rev. 4:1, "I looked and behold a door was opened in heaven." The Bible is a wonderful book. All the feelings of the soul, the things of the world, the voices of the night and the songs of the day are voiced in it. It is a collection of the life blood and vitality of the human heart. There are different ways of interpreting the truth. Paul was logic; Moses was eloquence; others were musicians as when the morning stars sang together for joy. David and Miriam the angels to the shepherds on the plains of Bethlehem at night and the revelator as he sang the song of Moses and the Lamb. Others of the Lord's disciples had met the death of martyrs and John was on a lonely island and as he was in the spirit on the Lord's day God opened to him a door and he was permitted to look into heaven. God spoke to Moses and Elijah; to Peter on the house-top, to the three on the mount of transfiguration.

When Elisha was shut in Dothan his servant saw the hosts of the enemy and declared they were lost but when his eyes were opened he saw the innumerable heavenly host. The great war doesn't show the failure of Christianity for that has not been on trial. It is the evil in the hearts of men that prompts war and bloodshed. If more were true to Christ there would be no more war. In many foreign lands they cannot get enough missionaries to satisfy the eager desire for God and yet there are those opposed to sending the gospel to heathen nations. The cross will triumph and sin will be vanquished. When downcast and discouraged remember Christ has said He would be with us to the end. What a noble record this church possesses. Think of the souls now in glory who wrought here in early days. It should be dedicated with sacrifice and loyalty to Christ. As at Bethany Christ uttered the words, "I am the resurrection and the life," so thru the gates comes the triumphant host of souls made perfect thru Him. Let us so live that we may join the great white throng which no man can number.

Dedication Service

Then followed the regular dedication ceremonies followed with the hymn, "Bless be the tie that binds," sung at the especial request of Mrs. Robert Hunter and during the singing the congregation filed by the altar and shook hands with the ministers and with each other.

Then came the report of the treasurer, J. C. Swain, as follows:

Obtained by solicitors for building fund:

Amos Swain	\$3129.50
J. P. Mahon & R. W. Robinson	2065.50
James Wilson	1942.50
Geo. R. Swain	260.00
E. E. Hart	448.00

TWENTY-FIVE CENTS DESTROYS DANDRUFF AND STOPS FALLING HAIR

Save Your Hair! Make It Thick, Wavy and Beautiful—Try This!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine downy hair—new hair—growing all over the scalp.—Adv.

BREAKS A COLD IN JUST A FEW HOURS

"Pape's Cold Compound" Ends Gripe Misery—Don't Stay Stuffed-up!

You can end gripe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.—Adv.

J. C. Swain, light plant	25.00
Epworth League	16.50
Old brick	18.46
Emma Swain communion set	37.00
Old stove	2.00
Old building	75.00
Total	\$1874.16

Payments

John Wolke, contractor	\$5425.60
Additions to contract	405.00
Seats, chairs and pulpit	581.90
Light plant	630.00
Furnace	200.00
Art glass	296.50
Concrete work	21.50
Books and hinges	8.10
Architect	151.89
Corner stone	23.50
Copper box	1.90
Removing brick	5.00
Window cloth	7.45
Insurance	5.50
Lumber and incidentals	32.98
Total	\$7806.72
Balance on hand	\$67.44

The carpet, piano and some other things supplied from different sources bring the total cost of church and furnishings to \$8222.72.

Some of the special donations not mentioned above were:

Epworth League, pulpit and chairs. Collection plates made and given by Charles Bealmear.

Communion set, Mrs. R. W. Robinson's class.

Carpet, ladies' aid society.

Corner stone, ladies' bible class.

Pulpit bible, in memory of Rev. J. P. Dimmitt by the Dimmitt family.

The dining tables, made from old seats by Ralph Wain, a large task.

Piano, Helping Hand class.

The worthy pastor, Rev. G. T. Wetzel, then spoke most happily regarding the work, the harmony that existed and laid especial emphasis on the fact that the church was dedicated free of debt and with a small surplus in the treasury and Dr. Kemp said in all the churches he had helped dedicate he had known but one similar instance.

Dinner

All then adjourned to the basement where a fine and bountiful dinner provided and admirably served by the ladies who received many compliments on the bill of fare and their excellent manner of waiting on the tables.

After dinner all repaired to the audience room again and the Lord's supper was commemorated.

Service in the Afternoon

As the weather was so inclement it was decided to have the services which had been announced for the evening in the afternoon and not open the church at night. The audience was then favored with a masterly discourse by Rev. F. A. McCarty, district superintendent. Before beginning his discourse the gentleman paid a high compliment to the people for their harmony, diligence in raising the funds and dedicating the church free of debt, something extremely unusual. He said however, the greatest undertaking was yet ahead of them, that of erecting a spiritual building. He hoped for a genuine, old time revival and spoke feelingly of those who had gone before, who had so well laid the foundations on which the people of today were building. The men and women of today were standing, as it were, on the shoulders of their fathers and mothers and should be worthy of the heritage.

He took for his text Phil. 1:27, "In heaven" or it would probably be better translated, our citizenship is in heaven. In his remarks only a very short outline is attempted. It is indeed tragic when we know a great truth and do not let it shape our lives. Our headquarters are in heaven. It was once a great thing to be a Roman citizen. Philippi was an obscure place, belonging to the Roman empire but it would hardly have been heard of or known but for the fact that Paul planted a church there and wrote to the members. Some of the people there were Roman citizens. Some by birth and some by expensive purchase. If we are conscious of being citizens of heaven the fact should lift up and ennoble us. Some pretend to fear we may get other worldly but the greater danger is that we may get too full of the things of this world and forget the great beyond.

An old time, boyhood friend, called on the millionaire Armour and told what he had been doing, preaching the gospel and Armour called him a fool but he talked earnestly with the great money king about the other and greater world beyond and finally both knelt and Armour gave himself to Christ and by Dr. Gumsauld and when the eloquent divine told of the need of technical training the poor young people of Chicago had Mr. Armour at once set about establishing the Armour Institute into which he and his family have put three million dollars blessing thousands of worthy young people.

Dr. Henderson of Chicago was a good man but disliked by a certain union in his vicinity and they even detested him but one of their number died and the family insisted that Dr. Henderson should conduct the funeral and two of the men waited on him and when they came to know him aright they elected him a member of their body and learned to esteem him highly. Our whole lives are a preparation for the next world. How many we once knew are not here now. How far dearer and sweeter is heaven to us because so many of our loved ones are there. The joys and strife of this world, its labors, troubles and difficulties all will tend to make us enjoy the rest beyond all the more.

Rev. G. T. Wetzel called for a vote of thanks to Dr. Kemp and it was cordially given. He also expressed his appreciation of the kindness of the press and especially of the Journal and the representative present. He expressed his pleasure at seeing so many present in such drearily inclement weather.

The benediction by Dr. Kemp ended the exercises.

Notes

Among those present were Mrs. Lulu Campbell of Chatham; from Jacksonville, Mrs. Frank Hart, Mrs. J. W. Sperry and daughter, Mrs. Wetzel and two sons, Miss Emma

Hunter, Mrs. Lucy Harrison, Miss Bessie Harrison, and Mrs. Wm. Mainline.

The church is a fine structure. The ample basement gives room for a kitchen well supplied with range, dishes and all else, a large dining or banquet room and coal and furnace room. The church was comfortably heated in spite of the cold; the upper part is finished in the most approved manner with folding doors for Sunday school room, a gallery for Bible class and a choir and piano platform. The seats, pulpit and communion furniture are of the best and the whole is neat and well done.

Dr. McCarty, Rev. G. T. Wetzel and the writer were most kindly entertained at the hospitable home of Mr. and Mrs. J. C. Swain, after church services until train time and greatly enjoyed the evening till a late hour.

Miss Mollye Harris of the force at the Floreth Dry Goods Co.'s establishment, spent Sunday very pleasantly with her friends, George James and family of Woodson.

CALENDAR OF SPORTS FOR THE WEEK

WEDNESDAY.

Annual St. Valentine's golf tournament for women opens at Pinehurst, N. C.

What makes Fatimas comfortable?

YOU'VE probably noticed that rather "oily heaviness" so common to many of even the most expensive cigarettes. That's bound to exist, no matter how good the tobacco, if the tobaccos are not blended just right to correct it.

Of course, such cigarettes can never be comfortable.

Fatimas, on the other hand, are comfortable. The milder tobaccos

in their Turkish blend are in such perfect balance with the richer, fuller-flavored leaves as to entirely offset all of that "oily heaviness" which makes so many other cigarettes uncomfortable.

With your first package of Fatimas you'll realize how genuinely comfortable a cigarette can be.

CARL MORRIS TO MEET DEMPSEY

Salt Lake City, Utah, Feb. 5.—Local fight followers are looking forward to seeing a lively contest tomorrow night when Jack Dempsey, the Salt Lake boxer, will face Carl Morris, former contender for the heavyweight championship. The bout will be a ground affair and will be pulled off by the boxing club at Murray. The Dempsey followers who include nearly all the fight fans of this section, believe he will be able to hold

his own against the big Oklahoma battler.

BEEKEEPERS MEET AT MADISON

Madison, Wis., Feb. 5.—Honey producers from all parts of the country are to be in Madison this week for the annual meeting of the National Beekeepers' association, an organization having branches in

twenty-five states and Porto Rico. Numerous experts are on the program for papers and addresses. The officers in charge of the convention are: President, Francis Jager of the University of Minnesota; vice-president, Dr. W. M. Copenhaver, Helena, Montana, and secretary-treasurer, E. R. Millen, of Ames, Iowa.

House, gold rimmed glasses in
case. Return to Coover & Shreve's
drug store. Reward. 2-6-11.

FIRE FIGHTERS TO
GIVE PUBLIC SHOW

New York Feb. 5.—A "fire show,"
somewhat along the lines of "Fighting
the Flames," but with the ac-
tual flames eliminated, is to be
given for the public at Carnegie Hall Wed-
nesday evening to demonstrate work
by the New York fire department.
The meeting is to be under the aus-
pices of the Civic Forum and will be
the second of a series devoted to the
purpose of making the public bet-
ter acquainted with the work of the
various city departments. Demon-
strations of rescue work and the use
of scaling ladders and life nets will
be given. Moving pictures showing
graphically the work of a fireman
from the day he started as a rookie
will follow. Music by the firemen's
band and singing by the firemen's
quartet will add variety to the pro-
gram.

WHEAT PRICE RISES DURING LAST HOUR

Notable Decrease in U. S. Visible
Supply Does Good Deal to Lift
Quotations—Closes at 1 to 6 1/2
Cents Net Higher.

Chicago, Feb. 5.—Wheat rose sharply
in value today after wavering until the
last hour. A notable decrease in the
United States visible supply total 600,
German change of set methods and
so on the advice that the leading and
shipment of breadstuffs purchased for
the entire wheat crop at present in any
event not be interrupted by the owners,
but on the other hand would be rushed.
The market closed strong in 10 to 15
cents higher, with May at 8 1/4 to 1 3/4, and
July at 8 1/4 to 1 1/4. Other leading
staples likewise scored gains—corn 2 to
2 1/2, oats 1/4 to 1/2 and provisions
2 1/2 to 3.

Buying orders predominated in the in-
teral business but some were checked by
reports that Austria had taken the same
position as Germany regarding un-
restricted activity of submarine. Pro-
moted weakness followed owing to the
news that an immediate break in
diplomatic relations with Austria was
likely. When traders who had sold short
attempted to cover, to collect profits
the market was found to be bare of
speculators. It was at this juncture that
the supply figures were issued showing
that the aggregate readily available
stock in the country had shrunk to
nearly 15,000,000 bushels less than was
the case a year ago.

Grain was strong from the start. Scar-
city of rural offerings intimidated sell-
ers who were also affected by talk that
the prevailing low temperatures had in-
creased the feeding demand. Oats were
influenced by the same conditions as
corn, but were less active.

Recent quotations on hogs
carried provisions and at one time showed
a jump of 1/2 a barrel compared
with the close on Saturday.

Never Put a Croupy Child to Bed Without Giving a Dose of

Foley's Honey and Tar

Mothers know it stops croup because it cuts the thick choking mucus, clears the throat of phlegm, stops the hoarse metallic cough, eases the difficult breathing, then quiet sleep.

Mrs. T. Neuner, Ean Claire, Wis., writes: "Foley's Honey and Tar completely cured my boy of a very severe attack of croup. We know from experience that it is a wonderful remedy for coughs, colds, croup, whooping cough."

J. A. Obermeyer
City Drug Store,

Don't fool with a cold. Cure it.

CASCARA QUININE

The old family remedy—in tablet form—safe, sure, easy to take. No opium—no unpleasant after effects. Cures colds in 24 hours—Grip in a day. Money back if it fails. Get the genuine box with Red Top and Mr. Hill's picture on it—25 cents. At Any Drug Store

KEEP LOOKING YOUNG

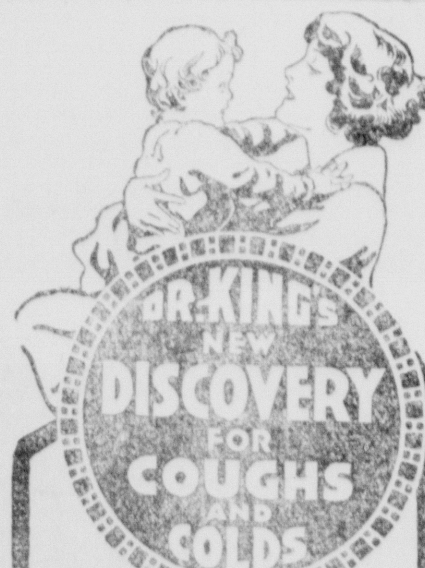

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color, 10c and 25c per box. All druggists.

Children pull at the heart strings and their slightest illness means anxiety. For nearly a half century mothers have had Dr. King's New Discovery, at hand for croup, congestion, coughs, colds and grippe. The mildly laxative ingredients erpel the cold germs, the choking phlegm is raised, the congested chest is relieved, the cough loosened and a serious illness is averted. Get a bottle of Dr. King's New Discovery at your druggist to-day.

CITY WATER RECEIPTS SHOW INCREASE

Collections For 1916 More Than \$3,000 Greater Than in 1915—Commissioner Vasconcellos Points To Need of More Wells at North Side Station.

Reports covering the operations of the city water and light departments were presented to the city council Monday. The figures for the water department were given by the superintendent W. H. Cobb and Commissioner Vasconcellos presented the facts about the operation of both water and light departments. The figures show that the departments have been operated with economy and efficiency as the water receipts. The receipts of the water department for 1916 were \$3,269.39 greater than for 1915. Commissioner Vasconcellos urges the need of more wells at the north side plant.

Supt. Cobb's Report.
Your undersigned water superintendent of the city of Jacksonville, Illinois, begs to submit his annual report for the year 1916, which is as follows, to-wit:

Total amount collected for year 1916, \$38,006.93.
Total amount collected for water exclusively, \$36,819.72.

Water Rent Collected, 1916

January	\$3437.13
February	2502.00
March	2649.40
April	2536.44
May	2687.03
June	3022.02
July	2902.43
August	3626.52
September	3086.78
October	2830.73
November	2930.20
December	3114.04

Total \$36819.72
Total number of consumers, 1575.
Total number of meters, 1575.

The following are the amounts received for meters, taps, meters repaired and miscellaneous accounts:
Meters sold \$ 705.00
Taps sold 225.00
Meters repaired 57.75
Junk sold 96.46
Miscellaneous account 103.00

Total \$1187.21
Total amount expended for postage and express, \$208.17.

The following amounts have been paid to the city treasurer:

January	\$ 5744.96
February	2853.45
March	2708.59
April	2929.63
May	2817.29
June	3743.97
July	2007.51
August	3794.39
September	3145.22
October	2907.35
November	2916.43
December	3169.17

Total \$37798.76
Postage and express 208.17

Total receipts \$38006.93

Amount collected for water exclusively, 1915 \$33559.42

Amount collected for water exclusively, 1916 36819.72

Showing an increase in 1916 of \$ 3260.30

Of the above amount, \$527.85 was collected for street flushing, which amount in our opinion would not pay for half the water used. Deducting this amount (\$527.85) from the amount collected for water exclusively would show an increase of \$2,732.45, over the year 1915, which is very gratifying to this department, as it shows a substantial increase of water consumers and water consumed.

The city buildings and Jacksonville cemetery are furnished water free, there being no record of amount used. City fire hydrants are also on the free list. There also being no record kept of water used for flushing city sewers and fire hydrants.

Water Supply.
Owing to the continued drouth the wells at the north end station have not furnished as much water during the past year as they did in 1915. We have had to pump a considerable part of our supply from the creek and lake.

It was necessary to open the valve at Morgan lake on August 31, 1916. Water has been used from this source at intervals from that time up to and including this date.

Under the personal supervision of Mr. Vasconcellos, commissioner of public property, an additional twelve inch well has been sunk to take the place of well No. 2, which was a ten-inch well, faulty in construction and being capable of furnishing but a small amount of water, was abandoned and the pump moved to the new well, which is giving much better results.

In addition to this improvement a device was installed by Mr. Vasconcellos whereby daily measurements of the water in the wells are taken and kept on file at the pumping station and this office. This device was installed Jan. 1, 1917. Since that date the water level in the wells has been lowered two and one-quarter inches.

There have also been a number of test holes sunk and it is to be hoped that in the near future additional wells may be put down, thereby increasing our water supply.

There has also been made by Mr. Vasconcellos a complete set of drawings of the north end wells, showing their location and depths with full detail of their construction, and also plans of impounding reservoir on College hill with its various connections to the city mains, drains and stand pipes.

These drawings will be of great value to the city in the future. A set of each is on file in this office.

Morgan Lake.

Under the supervision of Mr. Vasconcellos a substantial concrete tunnel and basin has been constructed at the outlet of Morgan lake to replace the old brick tunnel which had decayed in and become unfit for use.

The water in Morgan lake has been and at this time is quite low, there being only a few weeks' sup-

ply of water in reserve. This lake should by all means be deepened and widened, thereby increasing its capacity for a greater supply in reserve, as only through the intervention of a kind Providence during the last three or four years this city has been spared a water famine with all its attending evils.

Physical Condition of Plants.
The pumps and machinery at the north end station are in first class condition considering their continuous operation for the past three years or more.

The boilers and pumps at the south end station have had a number of minor repairs during the past year, and after many years of service are still in operation, and in fact are being operated about half the time.

Fire Hydrants.
All fire hydrants, 224 in number, were flushed three times, and those in the business section four times during the past year, and are at this time in good condition.

Improvements.
The following improvements have been made by and under the supervision of this department during the year:

Fourteen sectional concrete valve boxes have been installed to replace the old wooden boxes which were decayed.

Four fire hydrants were removed and replaced by new hydrants. Two additional hydrants were placed on old lines for better fire protection.

Sixteen hundred feet of new six-inch water main with one valve and two fire hydrants were laid and installed on East Independence avenue.

Thirteen hundred and thirty-nine feet of six-inch water main with one fire hydrant on Howe street.

A six-inch main was laid across Superior avenue on South Clay avenue with one valve, in advance of proposed improvement.

Flashed 500 feet of six-inch main on Hardin avenue which had become exposed by changing the grade of the street, also installed one fire hydrant at intersection of Superior and Hardin avenues, which was necessary for better fire protection.

Connected Snyder's new ice plant on North Main street and installed valve and concrete valve box.

One new ten-inch valve was installed on South Main street and a number of valves on the various lines repaired.

Our department feels gratified at the results of its efforts of the past year. As the total amount collected during the year was \$38,006.93 against \$35,238.08 of any previous year, showing a gain of \$2,768.85 in 1916 over any year's business in the history of the department.

We regret to say that two members of our department have met with sad and severe accidents during the past year. One of our engineers suffered the loss of an arm, and the other, our mechanical engineer, suffered the loss of an eye.

Mr. Vasconcellos also made the following report from his department for 1916:

Cost of coal in light department, \$9,147.35.

Cost of coal in water department, \$2,909.35.

Cost of valve oil in light department, \$117.12.

Cost of engine oil in light department, \$68.68.

Cost of valve oil in water department, \$14.32.

Cost of engine oil in water department, \$15.78.

Total, \$12,269.69.

Total cost in 1915, \$14,099.17.

Saving for 1916, \$1,829.57.

In my 1915 report I show a saving of \$963.62 in the last six months of that year and total saving of \$2,792.19 for the last eighteen months.

Receipts for 1916 from all sources, \$38,006.93.

Cost of coal and oil 1916, \$12,269.69.

Light department \$ 9,332.15

Cost of coal and oil 1915, \$14,099.17.

Light department 11,636.02

Saving for 1916 \$ 2,392.87

Cost of coal and oil 1916, \$12,269.69.

Water department 2,909.35

Cost of coal and oil 1915, \$14,099.17.

Water department 2,453.15

Loss for 1916 \$ 473.30

No. tons coal used in 1916, 4604.056

Water department 1244.68

No. tons coal used in 1915, 4615.451

Water department 937.07

Showing loss in 1916 of, \$ 312.61

Receipts for 1915 from all sources, \$34,635.81.

Excess for 1916, \$3,371.12.

Of the above amount there was collected for flushing \$527.85, which I will say, did not pay for half of the water that was used in the flushing, and if the shortage of water continues we will have to abandon the flushing. In the year 1916 we have taken down in the reconstruction of lines 44,890 feet of wire. In 1916 we put up fifty-seven lamps in the wards and three in the fire district. In putting up these lamps we used 32,590 feet of old wire taken down in the reconstruction of lines. Balance of old wire and hand, 12,070 feet. We did not have to buy or use any new wire in 1916.

Lake Yielding Nothing.

"The supply of water in this city is very serious, and the reason is the lack of more wells at the north end pumping station. The Morgan lake has filled up with dirt so that the capacity of the lake has been reduced to such extent that in a dry season when we have to rely on the supply from that source we fall short. Till the Lord comes to our rescue and sends a rain. Now something should be done to relieve this situation. There ought to be some means whereby we can improve the north end pumping station by putting in more wells.

"At the present we have at the north end five wells. No. 1 and No. 5 are 12 inch wells with 9 1/2 inch pump cylinders in them. No. 2, a new well put down in 1916, is a 12 inch well with an 8 1/2 inch pump cylinder. No. 3 is an 8 inch well with

a 6 1/2 inch pump cylinder. This pump will have to be moved, as well No. 4 is a few feet west of it and the gravel bed east of it is plugged, so that it does not pay to operate this pump in this location. As soon as the weather will permit, we will put in a 12 inch well at test hole No. 3 and move No. 3 pump into it. No. 4 is a 19 inch well with an 8 1/2 inch pump cylinder. The pumps in these five wells, except when one may be shut down for repairs, requiring, as a rule, part of a day, have run continuously, except No. 2, which was idle three weeks on account of our not being able to buy wire to repair the motor.

New Reserve Wells.
"But we should have at least fifteen wells, so as to have some in reserve."

"At Springfield they have seven wells operated by one pump. "The five pumps we have are large enough to supply all the water we use if we could get the water to them. In the main pump house we have two centrifugal pumps, one a 2,000,000 gallon pump and one a 1,000,000 pump. In 1915, when the water was high in the ground, we were using the 2,000,000 gallon pump, pumping into the mains. At present we are using the 1,000,000 gallon pump and that only a little more than half of the time. I will give you some figures that will show the standing of the water in the well No. 5 at the north end:

"On Aug. 24, 1915, there was 25 feet 3 inches.

"On April 15, 1916, there was 21 feet 5 inches.

"On July 11, 1916, there was 18 feet 5 inches.

"On Aug. 1, 1916, there was 16 feet 1 inch.

"On Oct. 12, 1916, there was 17 feet 5 inches.

"On Nov. 6, 1916, there was 18 feet 5 inches.

"On Nov. 29, 1916, there was 15 inches.

"On Jan. 1, 1917, we started to take daily readings from the top of the 12 inch casing in the square hole to the water, which was 52 feet 11 1/2 inches. The reading Feb. 1 was 53 feet 1 1/2 inches. We will continue the daily readings and I will report them the first meeting in each month.

"I am making this report because there are so many who want to know about the north end wells and why we are pumping dirty water and why we are drying Morgan lake in the year 1915 we did not open the valve in Morgan lake. All of the water that was pumped from the south station was pumped from the creek, and had it not been for the north end wells, not later than Dec. 1, this city would not have had a drop of water for use, and at present the situation is bad."

HEATING PLANT DISABLED.

The boiler in the heating plant at Lukanan Brothers' store spring a leak yesterday and was put out of commission. Gas stoves were placed in the store and every effort was made to keep the room comfortable.

WAR WOULD CAUSE SUSPENSION OF LEAGUE

CHICAGO, Feb. 5.—War between the United States and Germany undoubtedly would result in the immediate suspension of the Three I League. A. R. Tearney, president of the organization announced tonight, as club owners of the league gathered here for their scheduled meeting tomorrow.

"There would be no use trying to give the public baseball with the country involved in war," Tearney said.

There probably will be no changes in the circuit, Tearney said, although each of the eight clubs will be obliged to deposit \$1,000 as a guarantee that it will go thru the season. It is probable that a 120 or 144 game schedule will be adopted, and that the season will open on May, 1.

EARLY CHICKS

A few weeks ago Mrs. Frank Harden, 955 East State street, had a Rhode Island Red hen who was especially attentive to business laying an egg almost every day much to the delight of her owner. But after a time of industry the fowl was missing and the owner found her setting on five or six eggs. As Biddy was determined to set her owner decided to gratify her desire and placed in all fifteen eggs under her and Sunday morning, among the balmy breezes of that historical day the hen proudly brought off thirteen little healthy chicks. Mrs. Harden proceeded at once to bring them into the kitchen where they will be kept warm and carefully reared as they are thoroughbreds and they are not to be used as fries either, but kept for layers next winter when they will be at the right age to produce eggs.

340 ACRES FOR SALE IN HAMILTON COUNTY, ILLINOIS

This farm is all in cultivation, has one good set of improvements, the soil is a black loam and very productive, is well tiled, is located one mile from market, being on the Louisville & Nashville Railroad. This farm can be divided in three farms to suit purchaser, and is an excellent combination of stock and grain farm. Investigate for yourself and be convinced. Will make price and terms right.

Call on or write Z. W. Graff, McLeansboro, Illinois.

SENIORS DEFEAT FRESHMEN

In the interclass game Monday at David Prince gymnasium the Seniors defeated the Freshmen by a score of 19 to 9. The seniors won because of superior basket shooting and team work, outclassing the underclass men. The stars for the seniors were Earl Priest and Radger, while Brice and Lucas were the chief point makers for the Freshmen.
